NemoFish - February 4, 2015, 3:43 am

Hey guys, i've made 3 city wallpapers now, and then i was thinking why not made a collection. So i named them different things, and gave the pictures themes, like this one - Rainy october.

I hope you like my pictures, all the city's can be found on google or deviant art, i'll just make them more attracting with some extra nice. :)

Hope you'll like them. RATE IF YOU WANT, I'LL APPRECIATE A RATE.

You should post the original image as well...

Can't really see what you've done to it other than some cc and some weird lights
