Thread: [Free Skype Resolver API / Free Skype Resolving API](#)

Predator.WTF - February 4, 2015, 5:15 am

Free For Everyone!!!

Just wanted to drop by and give this forum and it's users my Skype resolving API for free.

The API will hopefully be up for ever and I do not mind you reselling it, just try contact me first.

API:

ht tp://api.predator.wtf/resolver/?arguments=

^Remove Any Spaces

Example Of Usage:

ht tp://api.predator.wtf/resolver/?arguments=cubertwin1

^Remove Any Spaces

I might Release more types of APIs just give me ideas? Ok Cool :)

This API does not spit anything else other than pure IPs filtered with regex, so nothing to worry there.

Thanks For Reading, Hopefully I did not get you bored...

Adding an database api soon. So keep tuned to this thread.

I have added more time on curl before timeout, maybe this will fix it.

Thanks for this man! Works very well! Mind if I use it on a private resolver?

Sure I do not really mind what it is used for.

Windows95 - February 28, 2015, 10:30 am

Thanks for the share, I have a windows vps how might I go about making one of these?
