Thread: [This issue is weird... HELP! \[fixed\]](#)

BLKLXVESMATTER! - February 5, 2015, 11:00 pm

This is happening.... on every page...

ISSUE HERE ([Click to View](#))

Victini - February 6, 2015, 2:28 am

How do you get it to look Purple? looks sick af! anyways, sad to see it looks really fucked up :P hope it gets fixed soon for u :)

Purple can be selected in the settings of HF? Lol. And OP, try clearing your cache.

Grim - February 6, 2015, 2:34 am

is this only happening on HF or other sites as well? will help us address the issue better

BLKLXVESMATTER! - February 6, 2015, 3:22 am

It was only happening on HF. The issue corrected itself though, not sure what it was. Also, purple can be selected within the settings.

Dave Skylark - February 6, 2015, 3:23 am

I was facing that issue some time ago on my laptop, only with chrome, closed it and it was gone after restarting.
