Thread: [Directory Service](#) | [Get clients fast](#) | [Receive more sales](#) | [Expand your Network](#)

Savage Matt - February 6, 2015, 3:54 pm

Hello Hackforums,

I am here offering a Directory Service to EVERYONE eligible. My Directory Service is growing rapidly with Service providers and I would like to continue the growing. I would like to be starting my Second Advertising campaign within the next 1-2 weeks. I did a trial run with my first advertising campaign and my results were pretty good. I will be charging 10%-20% commission rate for any customer I push through to you that makes a purchase. The commission will be based off how bad I need it currently, and the sale amount.

How this works:

I go out and advertise to get the best possible outcome, I will be reaching out to everyone across the web. I have my own advertising methods to get across to customers so leave that to me. However once I do get clients to message me I will then work out a deal prior between you, the provider, and the client before you two even meet. This will ensure that the client is serious and I won't be scammed. After all the details are said and I exchange your guys's contact info you start out by getting the payment and showing your customer the TOS. If I ask for the commission I expect it. I have given myself 7 days to ask you for it, if it slips my mind and I don't ask you simply don't have to pay. Congratulations on your free traffic. If you do a deal through my directory even after I set up the details and you then refuse to pay me the commission I request (10%-20% depending on my needs for money that day and the amount of the sale) Then you will be suspended from my directory service indefinitely, Once I get 1 page Directory page set up you will also be banned from it.

First Campaign:

Days advertised: 12 days - 1 setup day and 11 threading. I relied ONLY on 4-5 Community forums.

People in my directory: 4

Positions: Graphics design, Web design, and Computer security

Clients reached: Roughly 35 give or take a few

Clients goal to reach: 30 clients

Money reached by my service providers altogether: \$950-\$1,000 Roughly

Here are is my prediction for my Second Advertising campaign:

Second Campaign:

Days advertising: 30 days - 1 setup day constantly new forums post on a site list nearly 50 big, Constant email methods, and much much more . If I reach my goal earned by service providers which is \$10,000 Then I will extend the campaign to reach a new goal and add 15 more days.

People in my directory: Currently: 2 Computer Security 2 Cyber Security 5 GFX Designers 4 Mentors 6 Website Designers 5 Web Developers 2 Web hosters 4 Website promotional specialist.

Positions: Graphics design, Web design, Computer security, Cyber Security, Website promotion and ranking, Product marketer, Webhosting, Internet Marketing Mentor (online Money making mentor), and any other position that would appeal to your skills, However if you choose a section that isn't previously listed you must supply me with a thread design or \$10 to purchase a thread design from my GFX designer, The thread design will appeal to the section not you as a person.

Clients reached:????

Clients goal to reach: 300-500+ clients

Money reached by my service providers altogether: \$10,000+

The way this will work is you give me the list of everything I need via skype

UPDATE 02-07-15 MASTERLIST REQUIREMENT

Give me the list of everything I need via skype: So.odd

Skills aka services you want to provide -

Please send this list via .txt file on skype, Thanks.

[Here](#) is a list of positions I currently offer. If you do have a special service I don't have listed you must supply me with either a thread design advertising SavageSquad as a directory like this one Spoiler ([Click to View](#))

[img]http://i1122.photobucket.com/albums/l522/l2pkscapematt/SavageSquad_Mentor_service_image_zpsq1jht8k6.jpg[/img] or a upfront cost of \$10 to pay for a new one.

My job:

My job is quite simple but difficult at the same time. I will also be hiring a few irl friends to do this job with me. I will be doing a mass advertising campaign for my directory service, Within the directory service I will have service providers (You guys) my job is to spread my name any way possible. Whether its by email, community forums, business forums, game forums, facebook groups, facebook pages, twitters, instagram, or literally anything a good amount of people connect to. Once clients get in contact with me I give them a run down basically asking the essentials to keep bad traffic going through my providers. "What's your price range?" "Specific details?" or something like "estimated time frame you need this done by" This will help me direct the clients to the right provider, and assure we arnt all wasting our time with somebody whos looking for quick, EXTREMELY cheap, Sloppy work. Everything offered in the directory must be high quality and must fall in the TOS.

My TOS:

TOS for the Service Providers:

- 1.) Must deliver product within a 2 day span (This doesn't apply to Website Promotional specialist and Website design team members that are working on a large website. Website promotion must have their offer done within the time frame they give maximum one month. Web design must have the website designed and finish no later than 5 days. Failure to do so will result in a return and a trashed request.)
- 2.) Must deliver my commission on request after the sale, If I don't ask for it within 7 days after the sale, you don't owe me anything. Default commission is 10%-20%
- 3.) Must provide support 15 day support for any basic questions after the job is done. GFX and Web Designers must supply small tweaks to their products within the 15 day support period.
- 4.) You must come up with your own prices and service capabilities, DO NOT take a job you aren't able to handle.
- 5.) You must abide by the guidelines stated within both the Service Provider, and the Client Terms of Service (The ones that apply to you.) failure to do so will result in you being removed from the directory and all of your clients will be notified if they are through my directory service.
- 6.) Once the client first sends his payment for the service your providing it is not my responsibility to handle any chargeback or complaints outside of the TOS. However if you fill the request by the client and deliver before the chargeback I will do everything in my power to assist you with winning the dispute.

7.) You may not drop a request unless there is a legitimate reason to do so, You must verify it with me.

8.) TOS is subject to change at any time*

Default TOS for Client

(You may change this TOS as long as it abides by the Provider TOS stated above, Make me aware of changes before the payment is sent. anything with a next to it must stay the same in all version of the TOS.):

- 1.) Payment must be upfront and in some cases 50% first 50% after.
- 2.) You will receive a short 15 day support period for anything involving your service, during this period you may ask for small tweaks to be done.(Only for Webdesign and GFX services)*
- 3.) You will be guaranteed a 2 day deliver time frame for anything that doesn't require more than 2 days like Large websites, Website promotion. (Websites have a maximum of 5 days before they MUST be finished, Failure to do so will result in a return and a trashed request. Unless you (The client) allows the service provider an extended time frame.)*
- 4.) You must provide a detailed request for any service you are purchasing.
- 5.) You must abide by this TOS or your request will be terminated and you will NOT be refunded (If the Provider decides to drop your request you will be receiving a full refund from the provider, unless the provider is well into the service then you will only receive 50% back and a unfinished product)*
- 6.) Chargebacks will result in a permanent ban from my directory and a automatic ip ban once the Directory page is officially running. Aswell as a loss in paypal dispute unless you were scammed by the provider, In that case message me and I can have his/her name removed from my directory, and I will assist you in any way possible to win the dispute.*
- 7.) TOS is subject to change at any time*

I am in the process of making a separate TOS for each service however I only have this one basic one for all the services right now.

Any questions please contact me via HF pm, My skype: So.odd or simply commenting at the bottom, To keep the thread active I do wish for anyone to drop a comment even if its a simple good luck, or a opinion on my thread. Thank you!

Future goals:

- 1.) One page directory set up that links to a website to view each providers portfolio and contact methods.
- 2.) A Automatic commision charge for every purchase on said website.(I have a plan on how to do this but I don't want to until I grow a bit.)
- 3.) 300-400 Clients a month.
- 4.) 20+ Service providers in each Sector.
- 5.) 15+ Sectors with thread designs for each
- 6.) 20 Employees doing the exact same advertising services I am.
