Thread: [Pirate Kings - Android game hack?](#)

MikkyChannon - February 7, 2015, 2:03 am

Is there any cheat for this game?

I am finding it like Hell but all I found is survey...

Is there any member who has solution for that?

So I can get more spins/gold coins etc..

Thank you.

It's a server sided game, so I believe it'll be very difficult to hack. Just wondering if you can use speed hack etc to force the hourly spins come earlier?

You could try using Lucky Patcher to bypass the in-app purchases, but I doubt it's going to work on a server sided game like this. Maybe XModGames has a patch that could help you, and you can also try using BlueStacks if you can get some kind of bonus from friends.
