best of luck with sales to you. Hopefully this is not just another recycled copy and paste doxing e-book.

My honest review- I knew every method of this already and didn't learn a single thing. I'm sorry OP as the formatting is easy to read and looks good, but there's only 3 pages of actual info and it's extremely spaced apart. I'm not an expert DOX'er by any means but it still so simple.

TL;DR: If you're an absolute beginner this will be definitely worth it! If you already know what you're doing, you shouldn't buy this!
