Thread: [Null Consolidated - Looking for skilled designer](#)

Shanks - February 10, 2015, 4:17 pm

You will have the opportunity of being apart of Null along with our other two skilled graphics masters. [Novica](#) and [Ascendancy](#)

What I expect from you

Activity

Communication

Compassion for graphics

What you will should expect from Null

Respect

Access to Null

Being apart of something

Why would I want to join Null as a graphics artist?

The reason for this is because we're a group that actually do what we're supposed to do on a hacking forum, we don't work on-site, everything we do is off-site, Hackforums is just a face for the group, the real work is done off site. I expect quality work from the artist because everything we do is on point, we don't like failures and everything must be perfect. You will have the experience of your life when making graphics for Null. Unlike working with other groups our purpose isn't only site based so this means we expect you to keep your hands to yourself when dealing with us, I don't want to see you going around leaking projects to other people, mutual respect is needed and bullshit is not tolerated. If you think you've got what it takes fill in the application below. Good luck.

Application

How old are you? Don't bullshit us.

Do you have a link to a portfolio? If so link it.

When will you be able to start? We need someone to start ASAP.

Thank you and good luck to all that apply, this is by far the easiest way to access Null

Tokyo - February 10, 2015, 4:18 pm

Do you have a link to a portfolio? No. Because I don't upload my works online. I'm a professional photo manipulator. I can send you some works if you want. I'm generally good in graphics. I can work for free till you get to know what I'm.

When will you be able to start? Send me a pm. As soon as I see it I'll start right away.

How old are you?

I am 17 years old, with 8 years of experience as a graphic design autodidact.

I have developed my own style, which is a composite of several other styles and trends — although I try to make my designs stand out among others.

Do you have a link to a portfolio?

I am currently updating my portfolio, so I do not have a link to it.

However, here is a small assortment of some recent work:

What will the designer gain from doing this? Other than practice.

So yeah... I got the links.
