Here is the cover art for a bunch of new tracks I made and remixed, rate the picture and the music if you want, i'd appreciate feedback for both.

Welcome back man. Now this is the kind of stuff I'm used to seeing from you.

I'll give it a listen some time but the cover is great. Though I'd probably say it's wayyy too clusterfucked in some areas when looking at it from a distance.

Thanks, being an album cover it's meant to distract/catch your attention kind of thing so I didn't really try to make it make sense.
