lorens13's Newbie Guide

Hello fellow new HF members, today I am going to show you the answers to your problem

First of all, please read here:

[Help Documents](#)

And Second of all, before creating a new topic in HF, try using the search button and search for the thing that you want and/or you can also Google it

I recommend you to read these:

[The Absolute Basics of Hacking](#)

[Where Should I Start?](#)

[HackForums: A guide to learning your way around](#)

I suggest that you must read some tutorials in [Hacking Tutorials](#) section and read some [Ebooks](#)

If you want to Hack an Email Account, Game Accounts whatever with Accounts you can do this by using a:

1. Remote Administration Tool (RAT)

What is a Remote Administration Tool or commonly called a RAT?

This program enables you to connect into another computer all around the world and do some things with it like, seeing what they are doing, steal their saved passwords, keylogged them, open a program or anything that you want to do that they don't want to see.

Tutorials:

[SpyNet](#)

[Spy-Net](#)

[CyberGate](#)

[CyberGate](#)

[Appocalypse](#)

[Cerberus](#)

[ProRat](#)

You must forward your port for you to enable to do this

Tutorials:

[Port Forward](#)

[Port Forward](#)

2. KeyLogger

What is KeyLogging?

This program enables the target to send all the keystrokes to your email or FTP

Tutorials:

[How To Use A KeyLogger](#)
[KeyLogging](#)

3.Stealer

What is a Stealer?

Stealer is a program that steals saved passwords on a computer and send it to your email or FTP

Tutorials:

[IStealer 6.0](#)
[IStealer 6.0](#)
[IStealer 5.0](#)
[FlyStealer](#)

Before you send the server to your victim or spread it all over the internet,be sure that your file is FUD(Fully Undetectable) from all the AVs

Tutorials:

[Crypting](#)
[Crypting](#)
[Obfuscate](#)

Spreading Tutorials:

[Spreading](#)
[Spreading](#)
[Spreading](#)
[Spreading](#)
[Spreading](#)
[Spreading](#)
[Spreading](#)

And or Search the [Hacking Tutorials](#) section for more Spreading Guides

Hacking a Websites

There are 2 types of Hacking a website

1.By taking the site down:

You can do this by using a DDOSER or DOS

Now What is a DDOS and DOS?

[The Difference between DDOS and DOS](#)
[BotNet](#)

2.By defacing it through:

[SQL](#)
[SQL](#)
[SQL](#)
[Remote File Inclusion\(RFI\)](#)
[RFI/LFI\(Local File Inclusion\)](#)
[RFI/LFI](#)

Or just Search in [Hacking Tutorials](#) Section and/or [SQL Injections Attack](#) section for more tutorials

Before you do this please read here:

[Proxies/VPNS](#)

If you want to code your own Malware/Trojans,visit the Coding sections for more tutorials and I suggest watch in youtube for tutorials,read ebooks and/or Google it

If you are Infected or want to check if you are infected,please visit these links:

[Infected?](#)

[Infected?](#)

That's all,I will be writing more tutorials and guides sooner and sorry for my bad English.I hope I helped a lot of HF members and any negative/positive comments,suggestions and recommendations are always accepted,please reply to keep this thread alive.Thank you for reading my Guide

BluntManKoD - June 8, 2010, 11:09 am

Nice post I'm sure many new comers will find it usefull.

RHCP - June 8, 2010, 11:28 am

upon coming this thread, i realized all these things are completely obvious.. but soooo many new members dont take the time to look over the obvious things or even try to search. good thread

Greatest - June 8, 2010, 11:45 am

This should help new comers
good guide

[TheDoctor] - June 8, 2010, 12:12 pm

Good work bro! ?

DAV3 - June 8, 2010, 12:13 pm

This is a very nice tut for newbies! Keep up the good work!

Offtopic: 1k posts!

Inveno - June 8, 2010, 12:14 pm

This is a really useful thread, and will benefit allot of users.
Would make a great sticky IMO

vegetajgd - June 8, 2010, 12:19 pm

really it will help new comers like me.
Its like a complete package of important tuts in one.
Thanks a lot.

3v0|v3 - June 8, 2010, 1:51 pm

thank you, some good stuff

camboy8 - June 8, 2010, 4:05 pm

Great job man! Good overview of what all hacking can get u.

lorens13 - June 9, 2010, 8:58 pm

Thanks for the comments guys,I will post more guide sooner^^

vladimirzec - June 16, 2010, 6:24 am

I can't believe you covered all my interests in only one post...You are a genius!!!Thanx a lot! :)

lorens13 - June 16, 2010, 6:33 am

(Jun 16, 2010 06:24 AM)vladimirzec Wrote: [\[CITE\]](#) I can't believe you covered all my interests in only one post...You are a genius!!!Thanx a lot! :)

No problem mate,just love to help other members^^ and visit this thread <https://hackforums.net/showthread.php?tid=472401> for spreading

colinf - June 29, 2010, 3:19 am

I'll bookmark this for the spreading guides. Thanks.

lorens13 - June 29, 2010, 6:22 pm

No problem,thanks for replying^^

kompl33t - June 29, 2010, 8:12 pm

This helps new guys like me.?

lorens13 - June 29, 2010, 8:51 pm

Thanks kompl33t^^,visit my other thread if you need spreading guides/tips <https://hackforums.net/showthread.php?tid=472401>

blackshot1996 - June 29, 2010, 9:05 pm

hey! nc thread!! can i join PHILKER..??? im filipino btw... ! :)

lorens13 - June 30, 2010, 12:29 am

Thanks blackshot1996,visit <https://hackforums.net/showthread.php?tid=56295> if you want to join in Philker

-I Cancer - July 2, 2010, 9:28 am

Respect for the time you've taken out for the newbies!

Bad Meets Evil - July 2, 2010, 8:40 pm

This would do well in the beginner hacking section, dats where most of the noobs go :P

lorens13 - July 2, 2010, 8:59 pm

(Jul 2, 2010 08:40 PM)Nistr Wrote: [\[CITE\]](#) This would do well in the beginner hacking section, dats where most of the noobs go :P

You're right,thanks

can the mods move this thread to beginner hacking section?Thanks

Fallenbot - July 3, 2010, 1:38 am

VERY VERY USEFUL FOR NEWBIES.

quite nice work.

keep sharing

k1dz0r - July 3, 2010, 2:06 am

ou nice tut thanks you =)

lorens13 - July 3, 2010, 6:17 am

No problem SlimDeath and k1dz0r and thanks for replying in my thread^^

h11mb0b - July 5, 2010, 1:05 am

Thank you so much for this lorens13 !!

It has helped me and a lot of newcomers that I know.

Thanks again.

lorems13 - July 5, 2010, 3:21 am

No problem h11mb0b and thanks for replying^^

[Originator] - July 5, 2010, 3:59 am

Nice Man Great Work,,So Helpfull For Beginners :)

lorems13 - July 5, 2010, 4:11 am

No problem [Originator] and thanks for replying^^

I_Unvaild_I - July 5, 2010, 5:19 am

this was really really helpful

lorems13 - July 5, 2010, 5:43 am

No problem I_Unvalid_I and thanks for replying^^

Phoenix-Ace - July 22, 2010, 8:50 am

hey lorems!!!

xure its helps!!!

are you a filipino 2?

dba?

avidhacker - July 22, 2010, 9:11 am

very good one,,quite helpful

r3serve - July 22, 2010, 9:23 am

Nice post for n00bs to start.

avidhacker - July 22, 2010, 9:47 am

good man ,,good overview of hacking

Valour - July 22, 2010, 9:52 am

There might be many more ways Like one i know of is Rooting. I am not aware of how it is done,
just wanted you to add it to the list because it is also important.

lorens13 - July 25, 2010, 1:00 am

@Phoenix-Ace

No Problem mate and yeah,I am pinoy!

@avidhacker

No problem mate

@Undefined

I would like to add it to the list but I can't edit my thread anymore,maybe I will add it if I created a second thread for Newbie Guide^^

iwillkillyou - January 19, 2012, 5:38 pm

pretty useful, thanks. it will surely help out.

lorens13 - January 23, 2012, 2:16 am

(Jan 19, 2012 06:38 PM)iwillkillyou Wrote: [\[CITE\]](#) pretty useful, thanks. it will surely help out.
No problem bro and I'm glad that you've liked it :)

slips89 - June 4, 2012, 8:07 pm

Very nice guide, easy to follow... very well done...

This was a ton of help. Some things don't make complete sense for me, but some do.

rslulz - June 4, 2012, 9:04 pm

thanks good read! =] I learned a bit

Rulerzz - June 4, 2012, 9:14 pm

Good Work Bro !! If you Have Added some colours it would look intresting

GunVein - January 31, 2016, 3:59 pm

very nice and helpful, thanks for sharing this man :D

How2Hacks - January 31, 2016, 5:59 pm

@GunVein

Every consider that this thread is 5 years old?

skelly76 - January 31, 2016, 7:47 pm

Thread has been gravedug, nobody post.

lapolis - July 26, 2018, 1:17 am

really nice job! I can find everything I need in here!

I know this is meant for noobs but please dont follow this "guide" its not really a guide its not teaching you anything but how to use a tool you have no idea of what its actually doing and this why the hacking community is full of script kiddies because they learn from people like you who just give them a bunch of tools. your basically giving them a fish instead of teaching them to fish its pointless because when they need something they will just make a shit thread so they can be spoon fed more, if you really want to learn check out the thread i made not too long ago or ill pm you the thread.

also the reason i included the quote above is because it just shows how really you problem know nothing yourself and prob just grabbed a load of tools that you have no idea what they are doing. I mean you said that there are two types even tho there is many many more and you included DDOS/DOS as hacking? bahahahahhaa wtf its not a hack your just flooding traffic to one server hoping to take it down. its not hacking you haven't done anything....

so if you really want to learn security learn things like networking,programming,how operating systems work and how the different exploits work code wise dont just grab a tool and run it thats just dumb.

Thanks, Sam

congrats on replying to an eight year old thread

IWannaLearn144 - July 26, 2018, 5:20 pm

It was defo worth replying..... 8 years or 80 years this was a thread near the top so people were looking at it so i had to make sure they were getting good information and not this poopsticle.

Thanks, sam

raiden_immortal - August 7, 2018, 8:01 am

Thans Man.im new here.,good thing i was able to look into your post.Thanks for sharing.will try everything no matter wat the results, important thing is I will experience these all.thank you.
