I know we're allowed to sell XBL memberships but are we allowed to sell PSN+ memberships aswell?

I've heard mixed reviews and it doesnt say anything on the [Help Docs](#). :P

I am 99.9% sure it is allowed. I've seen people do it and they haven't been warned.

What Xbox and Playstation requests/sales are allowed?

Xbox Live Gold Memberships are the only Xbox products that are allowed to be sold or given away on Hack Forums. Everything else (Currency Cards, Consoles, Games, etc) is still not allowed.

PSN+ Memberships are the only Playstation products that are allowed to be sold or given away on Hack Forums. Everything else (Currency Cards, Consoles, Games, etc) is still not allowed.

^This is what I saved in my little Handbook I've been compiling. It was a response given by a Mentor.
