AssGang - February 13, 2015, 4:57 pm

Located in the USA, Texas, Was trying to figure out where is the best and cheapest to buy autoflowering bud seeds?. Ive grown before but only like once or twice not much experienced. Every where I look online, I see people charging \$15 plus just for shipping alone im like god damn ha

Trying to start out with Autoflowering seeds then work my way up to something better and different.
