I'm not going to waste my time asking you a bunch of questions or make you write a 300 word essay explaining how 1337 you are. Requirements are simple, you'll be given 4 vulnerable websites. (in no particular order) Your job is to find and PM me the vulnerability to each site.

1=LFI

1=SQLi

1=XSS

1=LFD

Reply if you're interested and I will PM you the 4 vulnerable websites.

This is not for everyone. You will need skill in website hacking to complete the requirements so be sure to "read the OP before you reply."

We currently have 12 members in our group and we are only accepting HF members that can complete the entire Application Challenge.

Good Luck to anyone interested! ?

EDIT:

[5] members have finished Application Challenge. ?

Benign - February 20, 2015, 2:32 pm
