Thread: [Cheap Twitter Verification Service](#)

DIGIFLIP - February 14, 2015, 9:12 pm

I have an account that is linked to a verification form. So, I can verify numerous people under me. How much should I sell this service for ?
Need advice.

I believe there are other services on here that sell it for \$5-\$10.

Digiflip, are you referring to the blue verified sticker on top of the profile?

If you can prove that you can do this to me, I can promise and help you make thousands guaranteed.

The user [Mark Zuckerberg](#) was selling for around that price.

I think I seen someone offer this service for around \$90 - \$100 in the past, I don't remember off the top of my head. But it's somewhere around there.

Can you prove this works? If so i can help you market this.

The user [RYAN REYNOLDS](#) was also selling this service.

You could sell this service easily by yourself without the help of anyone else, trust me on that. Most people just want to know the method, or want in on the income that you could make.

DIGIFLIP - February 14, 2015, 9:23 pm

I just wanna know how much is this service worth. Cheers

There is no secret to the method. Some accounts with a big follow base get access to verification

submission forms. There is no guarantee the person gets verified though.

It'll go between the prices of \$10 - \$25 it seems like, from the threads I have seen. I did however seen it go for a lot higher not that long ago.

Yeah I wasn't sure how it worked considering I hardly use twitter, but I kinda figured it worked that way. And the people who's posting talking about they will help OP with marketing is most likely trying to get their own accounts verified or make money by doing no work. ?
