Thread: [Sentry MBA Reboot?](#)

well then - February 14, 2015, 9:51 pm

I need some advice.

I'm thinking of making a complete reboot of sentry MBA. Modern ui, maybe some new features.

I would be selling this.

Would anyone be interested?

Features:

Better GUI

Up to 1k bots

The name will not be anything related to SentryMBA

Would anyone be interested? Since sentry MBA is free, you should give it for free.

(Feb 14, 2015 10:56 PM)Arcanine Wrote: [\[CITE\]](#) Since sentry MBA is free, you should give it for free. I wanted to do an upgraded version, and maybe do a small charge like \$10 or \$20. Nothing that the average internet joe couldn't afford.

Trig-Config-Maker - February 14, 2015, 10:49 pm

i got the source to the newest one and ya know it honestly could use an overhaul, it looks like junk even tho it runs good if it was more organized i think ppl would be more apt to use it more often... js

Assailant - February 14, 2015, 11:38 pm

That's definitely a good idea, although selling a revamped version of something that already works just fine may cause a mixture of views.

Nothing that the average internet joe couldn't afford. Let's say you increase the bots by 1000. Make a better GUI. Remove the features people DO not use, Add features. Then it would be worth money.

Ifinger - February 15, 2015, 2:39 am

no. sentry mba is free so it stays free. go and publicly sell a free youtube video for \$10-\$20. you cant and wont.

well then - February 16, 2015, 11:19 pm

I am 90% certain I will do this, I just need more opinions.

I will never pay for a cracking program.

There are to many. Just no.

If you want to make some \$\$ of it, best way to do it is asking for donations or letting it open a page every time it opens.

yeah but when your cracking program is top of the line why wouldn't you pay?

1000 bots isn't needed, due the fact we don't want our config saturated.

Yet, on the other hand somethings could be made easier, more information etc.

SIM-888979 - February 16, 2015, 11:43 pm

Why bother asking for opinions? Just do it.

1k bots will get your config patched in no time. Why does everyone want more? 250 bots and some good proxies can easily get you a couple thousand combos per minute. ?

It honestly depends on what website you're trying to crack on.
