HAHA. Sad story bro.

No, sorry. The only option which you have is to report him directly to Kik.

EDIT: Yeah, thought I read blocked and not deleted lol. Block him haha.

Well Have you tried blocking him...?

Bucky - February 15, 2015, 10:18 am

Try to block him and delete any chat with his nickname and remove Kik and reinstall it again and see if this issue still happening

There is a option before you press delete convo, click the tools button in the top right and hit block.

As I said, contact a staff member from Kik. Just send them an email. I guess he entered your name in a weird list. :D
