Hi There! Im an aspiring photographer/Videographer in college for business because the chances of Photography working out full time are unfortunately slim to none. In this thread I will be showcasing all of my work, I will show you the Great, Bad and Ugly... because we all take bad shots right?

Well lets get started!

Some random hands... I got bored.

Just 3 of my pictures I may or may not give out my photography Facebook page as it does have my first and last name....

Thank you,
Jack

These shots look great!

What kind of Camera and Lens do you use?

Also you're doing any post production editing what software are you using?

Feel free to give it out, I do as well. If someone wants to know your name, they will just get someone to dox you. So..no need to be paranoid as long as you're a good member. lol

I love my 50mm 1.8, going to upgrade to a 17-40 f/4 soon,

Great work!
