Didn't seem to slow down my server at all. I'll give it a ten

-Production Speed-

Clearly knows what's going on. He made it quickly in my opinion. 9-10

-Plugin Support and Setup Help-

Haven't needed support, but he offered. Let's go ten.

-Accuracy of Requested Features-

Nailed it. 10.

-Overall-

9-10. I have no complaints.

Vouch for this user.

Vouch copies will be given to the first few trusted members that request them. The plugin size for a vouch copy is small.

Vouch Copies Left: 0/4

theoldbrit - February 16, 2015, 7:41 pm

I'll take that vouch copy, pm me on hf or my server.

Goodluck with this dude, mad props

edit: OP has made me a really nice plugin to customize tools
It has been added to my donor things and have made alot of sales!

Thank you, I totally recommend him to anyone looking for HQ plugins with a small budget.
He will do it quick and with easy, support is great, helped fix lots of bugs ASAP!

You've been PMed about the vouch copy, waiting for your response. Lets do this!

Korean™ - February 16, 2015, 8:02 pm

Been asked to do a review for a custom plugin.
I will post back with my own review.

NickK - February 16, 2015, 8:55 pm

Hey could I get a vouch copy for this? Pm me bro

Malevolent - February 16, 2015, 8:57 pm

I like your thread design.
Good luck with your sales.

I'll take a vouch, by the way, if possible.

Freddy K. - February 16, 2015, 9:05 pm

this looks neat, what if i wanted you to create a whole mc mmo?

We could work something out, it will surely be classed as a large plugin however and the development time would take longer than the other levels, and even average "large" plugins.

Breathless - February 16, 2015, 9:37 pm

I will be heading off to sleep, everybody who has requested a vouch copy will receive them within 24 hours of their request.

Nature - February 16, 2015, 11:29 pm

If you still got a vouch copy left. Feel free to send me a PM!

Arcanine - February 16, 2015, 11:32 pm

Could you make a plugin where it downloads and executes a .JAR file?

Breathless - February 17, 2015, 6:21 am

I'm online and will now continue production of the currently requested plugins!

B?ng - February 17, 2015, 6:25 am

These prices seem very low for the sizes, I'm curious on how well coded they are.

Posting here to come back to buy some in the near future ;)

Breathless - February 17, 2015, 8:37 am

Temporary delay, I got scheduled for work. I will be home later tonight. Nearly finished will all requested vouch copies.

Breathless - February 18, 2015, 10:43 am

I've completed all plugins that have been discussed through PM and am currently ready to take more requests!

Korean™ - February 18, 2015, 3:54 pm

-Performance-

I will post back with my results. This plugin will undergo a 3 day trial.

-Production Speed-

I was contemplating whether to give this a 9 because of the short delay, however, the speed for small plugins is very fast.

10

-Plugin Support and Setup Help-

Once testing is over I will post back results.

-Accuracy of Requested Features-

Once testing is over I will post back results.

-Overall-

0-10

theoldbrit - February 18, 2015, 4:49 pm

Op and i worked out a plugin, will update my first post on how well it turns out
He did it very quickly though, after testing, watch my first post

Also, who did this thread design

-Overall-

0-10

Performance

Didn't affect my server at all.

Extremely lightweight.

Production speed

He got this done in 2 days.

10/10 for speed.

Plugin support and setup help

All I needed was a drag and drop and maybe 30 keystrokes for the config.

It wasn't that hard at all.

I will comment on the fact that he has a lot of 'real life delays'

But still, 2 days is quick for a small plugin.

Accuracy

Did everything I wanted it to do and I'm just waiting on him for a small tweak.

Overall

9.9/10

Probably the fastest coder for small plugins I've seen in a while.

theoldbrit - March 13, 2015, 5:06 pm
