Thread: [Describe the popular kids at your school](#)

LaFerrari - February 17, 2015, 12:15 am

Title says it all.

Describe the typical 'popular' girl/guy at your school.

SIM-765503 - February 17, 2015, 12:18 am

There are different types of popular kids at my school. To be honest, I hate my school..

Anyway, there are the popular kids who party and do drugs. They are popular mostly for that and being "chill."

There are also popular kids who are only popular because they are very good at a sport so everyone knows them and likes them.

There are also the kids who have been around forever and they are very outgoing, so they are popular and well known.

Maxi - February 17, 2015, 12:19 am

Um all I can tell is that they got a lot of fake friends and they act "whore-ish" (girls) and the boys use the "whore-ish" girls.. IDK

Sahaj - February 17, 2015, 12:20 am

At present, I'm the most popular guy of my school, tho I hate my school. I took down my school website and put some 1 month holiday notices on it and this made me famous.

PS- I was put in detention.

Nate - February 17, 2015, 12:22 am

Im not gonna front for hackforuns, Ya boy is popular

I think were popular because were chill, have fun, and weirdly do decent in school.

We are outgoing, etc.

I can't really talk shit tho on my own group hamie

Loudly, annoying brats, which you'd get death threats from when you hook up with a girl they're crushing on.

You got of pretty damn easy boi. You are very lucky.

LaFerrari - February 17, 2015, 12:25 am

The popular kids at my public high school are the people who come from extremely wealthy families and the ones who play sports.

Danger Dolan - February 17, 2015, 12:25 am

Guys - Cool with everyone

Girls - Hot and sluty

I wish sports where this popular around here.

As on school etc.

420 - February 17, 2015, 12:36 am

Rich and ones doing sports. But honestly 90% of all kids are idiots (including me)

That quote describes the fags at my school perfectly. I am not even joking. They think they are so amazing and if you don't suck up to them, you get treated like shit.

waqob - February 17, 2015, 4:30 am

Me. I'm one of the most popular at school

Girls - Hot and sluty

This is exactly it lmao girls have it so easy, suck dick, become popular.

drc00k3.14 - February 17, 2015, 5:03 am

Boys - Get detentions everyday(all detentions at my school are 1 hour after school), dicks to everyone and thick.

Girls - Slutty, one girl has fucked 4 different boys and is only 13 and another gives out blowjobs.

Gotal - February 17, 2015, 5:05 am

Popular boys are the rich ones who're fucking every slut in my city.

Shxtdown - February 17, 2015, 5:05 am

Boys - some of them are actually pretty cool; but they're the average 'cool hairstyle', flirty, etc. they're not exactly the most intelligent either.

Girls - the popular girls stir everything, they're toxic; I hate every popular girl in our year (no homo.)

Drug ballad - February 17, 2015, 5:06 am

Invalid question. There be only faggits at my school, 75% immigrants and the rest are inbred.

No racist thought, I got 1 black friend and 2 ISIS friends aka Muslims.

I'll just leave this joke here and leave:

Why do blacks hate country music?

Every time they here "ho down" they think their sister got shot

Same here. The kids that parents literally pay for their kid to play . And kids who make fun of others because there clothes aren't as expensive. But their parents buy everything for them.

Lol, The popular kids in my school are either the smart kids in or the flirty partying kids.

I hate them all so I'm sorta apathetic to their social status...

kayxmedd - February 17, 2015, 5:15 am

The popular kids at my school are those thug life wannabes.

King Bob - February 17, 2015, 5:22 am

Pretty nice overall people. They are pretty chill with me, even though I am friends with one or two of them grouped with "the popular click".

Astral™ - February 17, 2015, 6:36 am

There's 2 types: the sporty douches, and the ones who just get along with everyone. I'm the 2nd type of popular kids.

DeltaSierra96 - February 17, 2015, 6:42 am

I've always been part of the popular social circle, no matter what school I went to. I'm the athletic party kinda guy, so I fit in with quite a lot of people.

Seeing as I'm not at school though, there isn't exactly a popular group of people any more. I just see it as if you're cool, you're cool - it doesn't matter who you hang with.

257207954 - February 17, 2015, 6:44 am

Guys: Rich ones, Sport fags, Good looking ones.

Girls: Hot sluts.

Unknownswaggie - February 17, 2015, 6:55 am

The popular people at my school wear Vineyard Vines and sperrys. They're brats and absolute jerks.

Micki - February 17, 2015, 7:02 am

Bitches who have an idiot gang of people that support them. They gossip a lot and then use the "I'm a christian" or "God loves me and I go to church" to justify themselves as good people.

Jordy Clasie - February 17, 2015, 8:04 am

There are no popular kids on a art school, everybody is different.

Aston - February 17, 2015, 8:45 am

Hmm. I'd say these intelligent ones. They're pretty confident and happy almost every time .

Aurora - February 17, 2015, 5:26 pm

The popular guy/girl would be the football player and cheerleader.

CaliLinux - February 18, 2015, 2:08 am

Well me and my friends are the "popular" girls at our school, so like party animals, go to the gym a lot and whatever else. The popular guys get good grades, do sports, have a lot of cash to spend and always have a great assortment of drugs.
