Thread: [PICKING UP GIRLS! | Confidence Boosting | PLEASE READ!!](#)

?BowmanBot? - February 17, 2015, 5:43 am

My main goal for Hackforums is to help the community any way I can, and lately I have seen a pattern on here. The members of HackForums cant pick up chicks are even talk to them. This is not true for all members but I can see this helping a lot of them even if you are a flirting king!

Step 1:

Ask yourself, do you have the confidence to talk to a cute or sexy girl thats in your school, work or even whe you are out in places like the movies or getting coffee.

If you say yes thats perfect and if you say no all the more reason to keep reading.

Step 2:

If you are unable to even say a word to girl look at yourself in the mirror. Talk to yourself, may sound stupid but I promise it works. What do you say to yourself? Well this all depends on what your goals are. If you arent confident with the way you look just tell yourself there are way uglier people the me who get chicks. If you cannot talk to chicks, tell yourself that you can do it.

Step 3:

Just say hi! One of the main reasons you dont talk to chicks is because you are waiting for them to show an interest or you think they dont want to talk to you. This is very untire and you wont get social with anyone if you dont even say hi. Most people think this is the hardest thing ever, I can tell you from first hand experience that everything I tell you works. If you find yourself unable to think of what to say just start with small stuff such as "have a good day" or "beautiful weather out" or if you are from Canada like me, say something like "there's so much snow." Even if you don't have anything else to say starting with this you will soon find it easier to talk to people and even hot ass sexy chicks!

Step 4:

Be positive! Never be down about yourself, being negative towards what you said or did will ultimately cause you to have even more problems trying to be social. Some people say this is being vein but it helps trust me.

Step 5:

Get yourself out there, if you are lonely sitting on your computer on HackForums or what ever website you visit turn off the computer and go for a coffee or just a walk. Meet new people and talking to strangers builds up confidence no matter what way you look at it.

Over the course of the past 2 weeks I've tutored 20+ members on HackForums on how to pick up chick, how to talk to this 'one' girl and even how to get laid!

I cant guarantee you will get laid but I can guarentee if you follow these step you will talk to more girls. What you do from there is up to you!

I am offering free help add me on Skype if you would like some tips!

After my laat relationship (over a year ago) I kind of quit dating, now I just flirt with every girl I see. Honestly its so much easier for me, no bullshit and I meet so many knew people weather they be guys or girls and hookup with any girl I want. This is not to say I dont get turned down occasionsally but im smart with it so even if they turn me down we will and up being friends or at least sesh/drinking buddies!?

Thats really cute! My last name is Bowman too!

Here's how I do it, just talk to them. It's sounds patronizing but it isn't. Girls just want to have fun. Just see yourself as the alpha male and don't back down on a night out. just make yourself look like an idiot if you have to kiss them on there hands and give them a bow. most girls know when your trying to be manipulative just make them smile. assholes ask them questions non stop and act all nonchalant with them they see through it in an instant. It's an art just throw yourself in the deep end and keep going and eventually it justs comes naturally. I've never tried mirroring on purpose but with that method you only get one girl at a time (in a manipulative manor). with the balls of steel centre of attention method they fight over you. It doesn't work straight away but you have to just keep smiling and forcing yourself to have fun at all costs and just know that you can bang out anyone but you can never throw the first punch because you don't want to go down for GBH but if someone disrespects you confront them and put them in place with your words first. Speak to any one and everyone on a night out, if you don't like a girls attitude talk to some more girls. people will just start to gravitate towards you. I was on fire on my last holiday me and my mate got all the strippers out of a strip club to have a smoke and only 2 out of of 10 were actually smoking, I had one in tears she was laughing so hard and another was asking me to make a baby with her, and they were smoking hot spanish strippers. Just go out and earn it.

Thank you for the input but this thread, unlike your post, explains how to build the confidence to talk to girls, also not everyone has "balls of steel", your method will occasionally work but not always.

How do you do these things with ease? Confidence, also what almost 100% of girls are attracted to. Building confidence takes time a patients but one you have it you never loose it!

I've been doing researches on boosting self confidence for a few days now - and I must say this guide is really helpful for a lot of individuals.

I am doing my best to get more and more self confidence so that I can eventually ask a girl out very soon. Thanks for posting this!

Confidence does not come easily for a lot of people, please keep your negativity to yourself but thank you.

I hate when people have this mentality.....

EVEN if you are not at all good looking, as long as you show confidence girls will at least TALK to you.
