Thread: [Phoenix Refunds](#)

Tibit asked that I post this for him, he's been offline since Omni has post banned him and limited his account to where he can barely use the site, so he doesn't check the site all the time, that is the main reason for the delay as well as Omni has not refunded him yet.

Contact Tibit with the following information for your refund:

If via Paypal:

Your PayPal email you paid with
Transaction ID

If via BTC (if Omni doesn't send the first payment today in BTC then it will be a 3-5 business days waiting period till Tibit can get the BTC to do the refunds)

Your BTC address you paid with
The BTC address you paid to
The blockchain for the transaction

If you have any questions contact Tibit, he is post banned by Omni so unable to post this himself or reply on threads. Please do so ASAP as he's online right now and won't check hf all the time.

Shouldn't refunding be something like a top priority? He should probably check HF more.
May help to link his profile.

Aceman - February 17, 2015, 4:44 pm

Thanks for updating everybody Evangelist. Don't see Omni sending any BTC to Tibit prior to refunds being done so those people may need to wait the extra business days.

Astek - February 17, 2015, 4:59 pm

Cool, thanks Tibit just refunded me.

typhoid - February 17, 2015, 5:12 pm

Tibit messaged me a couple minuets ago and refunded me instantly after i replied.

I'm glad that he made good on his word. Thank you tibit!

I wanna ask Tibit but I don't.

Sigh, I would feel bad if I asked, but at the same time my curiosity is seriously killing me.

Well tbh, you shouldn't hold it against him if he pays you back via PP.

He is refunding your buy-in, not fucking exchanging it.

DOSH - February 18, 2015, 1:38 pm

I feel like these threads and posts are just to clear doubt of Tibit.

Hopefully this is legit. I'm glad Omni is took the actions he did.

What do you mean? He has refunded all the members that have bought in. This thread was made because Tibit was unable to make it himself.

Revamp - February 20, 2015, 10:07 am
