Hello! Before I start talking about myself I'd like to say thank you for doing a giveaway like this, even

if I don't win I'm sure someone will be really happy when they receive this and I can only hope they would be as grateful as I would be. However, this application is about me, so I'll start talking about myself. So when I first came to hack forums 7 months ago I didn't have much idea what was going on or how to start hacking. I wondered around the forums for about a month not doing and only learning small things. As the months went on a i got better and better at RAtIng but with that I got border and border of it. So I looked for a new hobbies, I saw the monetization section and started reading and growing my knowledge over there. Recently I've been helping people and tell them to PM me so I can give them personal guidance if they need it. I'm also interested in OMC and I sometimes suggest things for them but they rarely get accepted. I guess I've helped in all areas of the forums but it's hard not to when you have "1 Week, 6 Days, 21 Hours, 16 Minutes, 8 Seconds" online time.

This is a list of my recent contributions to the forums:

I made a thread about helping people start mining Dogecoin. I found it very useful myself when I was begining so I thought I would share.

<https://hackforums.net/showthread.php?tid=4675068>

I made a small suggestion for OMC and here it is.

<https://hackforums.net/showthread.php?tid=4674756>

I helped the ewhore community by creating this.

<https://hackforums.net/showthread.php?tid=4670077>

I giveaway my person Likenation Bot. No one seemed to want it though >.<

<https://hackforums.net/showthread.php?tid=4655197>

I made a tutorial thread helping people get traffic to their niches.

<https://hackforums.net/showthread.php?tid=4641564>

I giveaway my wordlist for bruteforcing, in the hacking section.

<https://hackforums.net/showthread.php?tid=4633381>

I did a watch YouTube video service.

<https://hackforums.net/showthread.php?tid=4614065>

I helped people use their bitcoin in wider areas of the internet.

<https://hackforums.net/showthread.php?tid=4603220>

I did a traffic giveaway, I ended up giving away 1000 views to one person.

<https://hackforums.net/showthread.php?tid=4587985>

There is so much more that I have done. Feel free to go look yourself. Yet again, thank you for doing this and I hope I win

Minato Namikaze - February 19, 2015, 8:33 am

Hey there man , I don't really do many giveaways like others are going to post , but I think i'm very HQ and always help people out any way I can.

If you need proof of my uber acceptance PM me and ill give you a screenshot ?

Comedic - February 20, 2015, 2:20 am

I've been a member since 2013 and I would love to be on the upgraded side. I tend to help a lot of people out since I don't got pc access anymore as of right now, but that won't stop me. I got 1k+ posts from just my phone lol. So that's something I guess. :)

Thank you for doing this!

Best of luck to all the other candidates ?

nurries - February 20, 2015, 2:25 am

I will be celebrating my 5th year of being on hackforums and winning l33t to compliment that would be amazing! I also made a few guides and also posted a guide to teach my fellow hackforums members on how to make a girl squirt her juices everywhere ;)

<https://hackforums.net/showthread.php?tid=4042358>

Thank you for your consideration!

May be one of the old too.

I would love to become l33t.

And I want to give reputation. And l33t is cool. I love the tag of l33t.

lean - February 20, 2015, 5:08 am

You should choose me because; I've been helping new members on Hackforums and I've been really nice to people and I'm the guy who needs Ub3r :)

Zed x)) - February 20, 2015, 8:57 am

Choose me please ^-^

I bought L33t a week or so after I came onto HF, and I love it here. I think of it as 'HomeForum' because I literally always have HF open when I'm on the PC. This is a second family to me.

Nice OP for this contest. Well the reason for me so that you choose me for L33T is --->

I refused money to take for teaching SQLI to some member. Because knowledge is free

I shared some important Udemy (warez disallowed) Courses here.

Hope you like this and upgrade my account to L33T

Thanks ?

Yeah I already tried calling them, but they couldn't help me since my account got permanently limited they said I couldn't appeal the limit... And pretty much all my funds was in my paypal account, so go figure. ???

Phixy The God - February 22, 2015, 6:51 pm

I think I should win because I stay as HQ as I can and try to help the community as much as I can. I also have been becoming very active on this forums. On everyday for at least 4-6 hours.

R I U - February 23, 2015, 5:09 am

would like to be upgraded to: ub3r

Why do you deserve the upgrade?: I always like to help others out, sharing some freebies .I watched this community grow and really felt honored to be a part of the scene for this long and hope to be a part of it in the years to come.

Along with the above mentioned point, I would like to make myself more capable so that I can help out more, do some free services and host some wonderful giveaway to all the needful members of Hackforums because I find the feeling of appreciation after a job well done the most satisfying one

I can show you the approval PM for ub3r

DYC3 - February 23, 2015, 7:31 am

Would love an upgrade for the simple reason of been waiting for over 2 years now, would be great to finally get the blue and make Mr. Approval bot happy! + See my self as a really nice guy, tend to post in the personal life section helping as much as possible, generally the innuendo, getting ub3r would feel some what like a gift for some of the help I've given. ?

P1R4T3 - February 23, 2015, 11:12 am

I will try my luck ;D

Why i think you should pick me? Well i am old member, more then 2 years old :P I have 0 scam reports and only 1-rep (my mistake for posting reff link in wrong section)

I can't think anything else ;D More then 2 years old member and i still can't afford l33t lol :D

Warren Buffett. - February 23, 2015, 11:24 am

Hello there,

I would firstly like to thank you for this great opportunity you give us all to get upgraded and here's my ub3r approval:

<https://imgur.com/2cs4FoS> I've tried to contribute with my skills to the community in different ways: I've done a huge hacking giveaway that has almost 9k views :
<https://hackforums.net/showthread.php?tid=3794197>

I've shared many ways on how to get views troughout the years:

<https://hackforums.net/showthread.php?tid=4682455>
<https://hackforums.net/showthread.php?tid=3790693>

I've tried teaching as many people as I could CPA in a HQ way without willing to get anything in return:

<https://hackforums.net/showthread.php?tid=4639612>
<https://hackforums.net/showthread.php?tid=3762381>

I've also sold an ebook that has a 5 star rate on the the thread and I have been giving it out to the people who seem to need it these last days(I can show you the proofs):

<https://hackforums.net/showthread.php?tid=3837553>

I've worn at least 6 member's signature without asking them anything in return.

Anyways, I hate begging for things but I think becoming UB3R is more like an investement, I have

many plans for the future but I'm sadly limited by the fact that I'm not an UB3R.

I will publish another ebook even more complete then the first one and I will create an unofficial group with a L33T friend, here's the logo to show my dedication to my future plans:

<https://i.imgur.com/g14g8Ph.png>

I swear to god that if I get this upgrade I will give you those 25\$ back once I make some money like I used to. I would gladly teach you CPA/PPD or help you in any way.

Thank you for taking my application in consideration,

100ZeroGravity ?

I think that I don't deserve to be chosen as I don't find this as a competition over something. I believe, that if I were lucky to win this, it would help me save some money off. ?

I've even a member for a couple a years now, and I'm loving it. I'm not sure if it 'deserve' l33t but I would definitely be appreciative about it, I also want to be able I graphical sigs since I tend to support a lot of people that way. Thanks for doing this OP, good luck ppl ?

Edit: I will contribute more once I get pc access back, just thought I should add that in lol ?

HACKED - February 24, 2015, 4:35 am

I have posted again (post #34) but I didn't mention the reasons for which, I believe I should be in the winners.

Firstly I am a member for several years , I have spent hundreds of hours on this forum and I was almost always active.

I have hosted several giveaways such as from simply clicking links, liking videos , subscribing, commenting, signing up under referrals of HF members and to money and game giveways!

As you can see from my rep, everyone has positively repped and in my opinion this a sign of being a high quality member.

Of course there are some members who might be dissapointed due to my posts or my giveways, but I believe this is natural since we all make mistakes.

I also do favors for the HF members, as you can see from my reputation and I am active on the Lounge.

Unfortunately, I have not yet offered any hacking tutorials because my knowledge is limited relatively to other HF members.

I am planning on hosting some better giveaways in case of becoming a l33t member.

Anyway there is no need of keeping describing why I think I should be in the winners.

You are the person who will choose, the people who are more capable of winning and deserve it.

Congratulation for this great contest!

I hope you select the members who deserve wining the most!

Thanks in advance!

Btw, sorry for possible grammar or vocabulary mistakes!
