Thread: [\[FREE\] How to Buy CS:GO Items without the 7 Day Trade Restriction!](#)

Alusto - February 19, 2015, 4:58 am

Welcome to this guide on how to buy any CSGO item and not have the 7 day trade restriction!

I decided to give this away for free since I realised its such an obvious guide, and to also get a better reputation on HF.

This will be helpful for you if you like to buy skins and be able to trade them instantly or like to bet on csgolounge and want to get skins quickly to bet.

The guide is now free and details how to do everything clearly and easily.

Receivied a vouch copy of this. Although it's written well and yes it does what it says I don't recommend buying it at all. It's common knowledge and really doesn't deserve an ebook. Hell I have better methods than this and you can't sell them because everyone knows them.

Sorry OP but I hope you don't sell this. Maybe give it away on here instead.
