Thread: [Hackforums Top 10 - Top 10 hated members](#)

The All Seeing Eye - February 20, 2015, 1:07 am

Hello fellow users.

Yesterday I saw Alltime10s video, and I got inspired to make a hackforums version, I don't have the skills to make a fancy video, but who knows. So I will just make a text version for now, if you like it then tell me, and I will make more :)

Top 10 hated members

#10 [Ui Hirasawa](#) Reputation: -223

A member from 2010, his first days at hackforums started with negative reputation. Now he has 223 negative reputation, he is mostly know for his trolling posts, and hateful comments. Here is a couple of comments from people who didn't really like him that much:

- "I don't like you" - The French
- "Revenge Rep." - nofear1999
- "Low quality user." - Liberty
- "Trolling about someones death? What kind of a fucked up kid are you?" -
- Legacy-

All his threads has been deleted, only 1 left. Even though his comments/posts still remains.

#9 [New York](#) Reputation: -261

New York signed up on hackforums in 2011, since then he has been very unpopular. He started out as a sketchy guy, who turned out to be a scammer, and a low quality member. All his scam reports were real, and today his account is banned permanently.

Here is a picture of his reputation: Spoiler [\(Click to View\)](#)
<https://gyazo.com/6ba7ff5cd7b5f246770781a2549a8759>

#8 [m4v3r1ck](#) Reputation: -63

m4v3r1ck created one of the biggest scandals on HF ever. He wanted to create a carding forum (black hat forum), where HF members with these interests could sign up, what they didn't know was that m4v3r1ck was an FBI agent, trying to infiltrate the illegal hacking community on HF. He got other members arrested and was also the reason to the RAT "Black Shades" had to close. This make him the #8 most hated member on HF.

#7 [Chrasy](#) Reputation: -350

Chrasy was known for having stereotypes of blacks and muslims. In fact here is a picture of one stereotype thread about black males, taking by another HF user Spoiler [\(Click to View\)](#)
<https://gyazo.com/bb493cb29b14e7d80c59d62d4da4dd57> Chrasy was always active in the religious debate, even though, tough words was used, and a couple of racist and stereotype comments was

spoken. Chrazy was especially hated by the black and the religious people on HF.

Today his account is closed, his motive for his hate to muslims and blacks still remains unknown.

#6 [?nonyous](#) Reputation: -510

Anonymous was a very HQ member of hackforums, at least in the beginning, after building up his reputation which at that time was over 2000, and building his website (#.net), and making his own user group (Legion). Anonymous started scamming, but not for small amounts, he scammed for 1-4k\$ from his victims, rumors say that he had over 30k\$ on his paypal and BTC wallet. With over 15 scam reports at once, and almost all were real, anonymous got banned, and members from HF started doxing him, his identity has been revealed, but nothing ever seemed to happen to him. This make him the #1 scammer on HF and the #6 most hated.

Random knowledge:

- Victims never got their money back.
- Anonymous had a hacking service, even though he didn't know how to hack himself.
- Rumors say that anonymous is a family dad.

#5 [Sky](#) Reputation: -21

Sky is the founder of doxbin, he has doxed several members on hackforums, he has threatened and harassed several members. Sky didn't just "operate" on hackforums but on other forums to, forums related to hacking. Sky has not been proven to be a skilled hacker, in fact many claim that he used a tutorial to dox members, and that you could call him a skid, these information are not confirmed though. Sky has been banned after a warning, what happened to him afterwards remains unknown.

#4 [Acroz](#) Reputation: -198

Acroz was a former member of the group "Legion", he was well connected with the owner of the group "Anonymous", the stories are very similar, they both went on a "scamming spree", and acroz had the same tactic as Anonymous. Build up reputation, upgrade and become trusted. Acroz has been banned from HF, and rumors says that Anonymous and Acroz helped each other out with the scamming, but that remains unknown.

#3 [Grievous](#) Reputation: 1120

Do you hate E-books? Then you probably hate Grievous. He is the master of money making E-books here on HF, what's wrong you may think? More and more users have questioned how well his E-books worked, and it turned out that the E-books required some ridiculous much time, and some of them wasn't even working, Grievous has in the past been accused for scamming, and not give correct information about his products. He was also hated for his bad attitude and fights he started with groups.

#2 [Stay Plural](#) Reputation: -587

If you know anything about this member, pleas PM me, or reply to this thread.

#1 [Historic Moron](#) Aka hacker22 Reputation: -586

This is not some regular member, this is a former moderator on HF, he started out really good, many people liked him, and suddenly he became moderator. One day out of no where, he went

"crazy", and tried to harm hackforums with his moderator abuse, he tried to ban members, delete threads etc... Don't believe, a member took a video of it. Spoiler ([Click to View](#))
<https://www.youtube.com/watch?v=5Swqcqx2h7o>

The reason he is the most hated member, is because of his actions, I don't even know him, and I hate him for trying to destroy a community where people get together and talk about a lot of topics, not just hacking. And if you read his Reputation comments you will understand why.

I made my own research, since HF is one of the biggest hacking related forums, other forums talk about hackforums, and the story about some of the members here went "viral" on other hacking related forums, which I have been a member of.

Some facts may be incorrect, but that's why I made this prerelease, so you guys could help me and give me feedback :)

Nice to know, if you don't mind I would like to ask you some questions in the future about the past of HF, to make these top 10's.

The main reason I picked Nyx- was because of his rep, and because he was an former moderator, who abused his power, and his way of talking, and the way people describe him. Correct me if I am wrong.

Server97 - February 20, 2015, 2:33 am

Nyx isn't even that hated, people just neg him because his reps so low.

Anyway, I enjoyed reading. :)

Nyx was just a huge troll in every aspect of the word.

I don't know many people who genuinely dislike him. As most have said, he wanted the neg rep, which is why he got it.

I <3 Nyxiepool and I wish he was active even on Tinychat again /:

He should definitely be #1 on HF top 10 trolls lmao.
He doesn't even belong on this one though, imo.

Your list is WAY out. -Nyx is NOT hated, he set a goal of getting the lowest rep at HF and everyone helped Him achieve that by giving Him -3 instead of +3.

Also You missed off Historic Moron, who was an moderator here back in the day who attempted to cause chaos by allowing people access to His privileged account which resulted in content deletion, member issues and bans ect ect. He would 100% be at number 1.

Your list is pretty poor, badly thought out and compiled with little knowledge and/or poor background information...

Stack Overflow - February 20, 2015, 7:45 pm

Quote:#6 [?nonyomous](#) Reputation: -510

Anonymous was a very HQ member of hackforums, at least in the beginning, after building up his reputation which at that time was over 2000, and building his website (#.net), and making his own user group (Legion). Anonymous started scamming, but not for small amounts, he scammed for 1-4k\$ from his victims, rumors say that he had over 30k\$ on his paypal and BTC wallet. With over 15 scam reports at once, and almost all were real, anonymous got banned, and members from HF started doxing him, his identity has been revealed, but nothing ever seemed to happen to him. This make him the #1 scammer on HF and the #6 most hated.

Random knowledge:

- Victims never got their money back.
- Anonymous had a hacking service, even though he didn't know how to hack himself.
- Rumors say that anonymous is a family dad.

Holy tits. Last time I checked his rep (which didn't seem like long ago) It was still in the positive 1K range. But -500? Shit. And he still get's some positives here and there.

Nice guy my ass. I knew him since he was new to HF. He started out super nice, having skype chats and calls, sharing software etc. Then he got an ego, became obsessed with obtaining high volumes of rep, and started using people to get their products for free. He always asked me for free copies of my software or my friend's software. Total attention whore.

End of the day he went on a scamming spree and got banned.

Congratz, the problem with making a top 10 richest, is how to find out who is the richest, some people don't wanna share how many money they have, what should I be looking for, paypal, how much stuff you own, if you own a company etc... Also almost everyone can photoshop a fake picture of them having 10.000\$ on their paypal.

So I may have to dissappoint you bud, but I will make another top 10, but not with 10 richest.
