Note: You Cannot Withdraw Any Omnicoins

How Do I Play the Game?

1. Mine Omnicoins Using the "Mine" button
2. Exchange Omnicoins for USD using the "Exchange" button
3. Buy stuff with your exchanged money to automate your business.

I've been playing and I noticed a bug.

Every time i purchase a exchanger it stops my miner completely and it doesn't take away omnicoin it just leaves that and adds money :o

Get Rich Or Die Trying - February 20, 2015, 7:48 am

Well i'll already come with some feedback.

A few things you should change:

When you buy exchangers it should sell the OMC you have not just give you money (nevermind saw this change when you buy the second upgrate)

And the image for coin bass i broken

It's not a bug it's just because you sell as many coins as you min pr sec :)

You should add more and better Tax Havens. They can't keep up with the 51% attack and god.

Good game, found it very easy yet addictive. I would of liked it harder and more stuff but whatever :P only took me 30mins or so to complete it. Also no auto clicker or anything like that was used, just my burnt out fingers.

Time to stop.

The way to cheat is easy: reverse Base64 and see the part "cs". Change it for any number in Hex and done. All the other settings are for miners and options.
