Sharkitaxe - February 21, 2015, 11:34 am

All the people that prefer Firefox over Chrome: why? It's not as clean as Chrome by a long shot.

*practically all environments

Anyone that complains that Firefox is slow has no idea how to use a web browser.

The Banished Prince - February 21, 2015, 12:01 pm

Internet explorer is the probably my most hated because of its slowness.

Rote - February 21, 2015, 4:21 pm

IE Explorer. People at work have to use it, IT head admin is way to concerned about security and have the crap they have to use doesn't work

gore - February 21, 2015, 4:25 pm

Almost a tie between Firefox and Opera for me, but FF took it.

I hate Firefox so much omfg. So laggy.
