Thread: [99 Agility](#)

Sam Winchester - February 22, 2015, 7:06 am

Just hit 99 agility with my Ironman. Before you go ahead and say it couldn't have been hard as it's EoC, well it was pretty damn hard. I could not use the double XP from Barbarian Assault, I couldn't access Elf City and I did not have Silverhawk Boots. The best XP I could possibly get in an hour was 65k. Oh and no I did not get the double XP weekend bonus.

I can't enjoy OS for some reason. I'll most likely try playing it again in a few weeks though so we'll see.

That is an amazing achievement, I'm currently going for 99 Agility right now, it's a mammoth task but

the achievement is huge.

If you're playing on a regular account you can access the Barbarian Assault double XP and a buttload of other things to boost your exp gains. Anyway, good luck.

I may be wrong but it's BA just bonus XP and not actual xp? Is it worth spending the time getting the bonus XP when I could be using it to get just XP?

I applaud you. I'm 75 agility in RS3 rn and that was probably the worst time of my life getting up, I can't imagine getting 99 on my main let alone on an iron man. Congrats haha

It's bonus XP. And yes it really is worth it. I think you can get at least 300k bonus xp in an hour with a decent BA team.

Thanks man. It was indeed quite a journey. Luckily I had Game of Thrones with me the whole time.

Thanks man. It was indeed quite a journey. Luckily I had Game of Thrones with me the whole time. Yeah Ive been watching the walking dead which has helped me through some of my skilling, but agility is not very afk so its kind of hard to watch and do agility at the same time.

It took me a while to really be able to concentrate in doing both things at the same time. Though, at one point I was watching series, training agility on my ironman and hunting chins on my 07 account at the same time.
