Thread: [OnlineMultiPlayerGames | HQ Gaming Community Forum | Friendly community](#)

Internet Explorer. - February 22, 2015, 11:10 am

MultiPlayerOnlineGames (MPOG for short) is a Gaming forum, where we strive to keep it an as friendly community as possible. Admins are active, and our top priority is the users feeling of the website. Right now, the website is not very active due to it being made today. Our support with the members are also top notch, as we always answer within 3 hours.

The first 3 users to sign-up and make 5 posts can get 1000 visitors to any website of their choice.

So come join today @ <http://onlinemultiplayergames.co.uk> ?

Make It Sick - February 22, 2015, 2:23 pm

It looks like it was made in 5 mins tbh and no content. Might want to post things, users don't want to join an empty forum.

Abhax - February 22, 2015, 2:38 pm

Might wanna throw on a logo and icons to the forums to like controllers or something to make it look more like a gaming website and less like a corporate one. But nice beginning just modify the theme to fit you better!

dirheist - February 23, 2015, 5:27 pm

You have the default myBB theme and you have nothing on the site. 0/10 for sheer laziness

Internet Explorer. - February 23, 2015, 11:44 pm

My first "website" ever, so I've gotta learn :-)

Internet Explorer. - February 25, 2015, 12:41 pm

Come check out my forum, currently adding some more subforums!

Invisible Shadow - February 25, 2015, 3:03 pm

Default MyBB theme, no posts, 4 forums. Wasre of time imo.

You may want to add a theme and a few mods/plugins to enrich the features.

Internet Explorer. - March 13, 2015, 2:52 pm

We're currently changing the theme, it looks dope!

Also, expect a lot more to happen the next couple of days!

The catogorys are weak. The forum hasn't got many users. Try adding sections which seem to be poupler on other forums.

Thanks for your input, Bumel.

We're currently updating userbars at the moment, and we'll add more categories later.

Got any ideas?

What were your ideas? Already 100% sure to keep it as a forum, but what would you suggest anyways?

Interested :)

King T. - *March 19, 2015, 1:20 am*

There's no Counter-Strike section :(

Or is Valve Games just 1 big section for all of that.
