Thread: [\[ANYONE\] Giving FREE Google Inbox Invites](#)

Recoome - February 22, 2015, 3:40 pm

Please note! This doesn't work if your not using gmail!

What is Google Inbox?

Google Inbox is a alternative to gmail, it is in beta and you need a special invite from Google to use it, but waiting for a invite can take up to 3 WEEKS which is why I am giving out instant Google Inbox invites, for more information about Google Inbox use this link

["Click Me"](#)

How do I get a invite?

To get a Invite comment below or PM me but I need your gmail to send it to.

FRANKIE - February 24, 2015, 11:26 pm

Please send one my way, I used to have a few people offering to send invites but they never came through. I am definitely interested in checking this out.

I'm still confused if I can use this on IE Because from what I can see you can only use it on cellphone

Recoome - February 25, 2015, 8:07 am

You have to activate it on a cellphone and it only has support for Google chrome

Send me your details or download bluestacks

Sent a invite to d-dog13 and I'm still waiting for Frankie's email
