Thread: [\[Thread Design\] 1st Thread Design](#)

Abhax - February 22, 2015, 5:10 pm

I got extremely bored. This isn't my first time using Photoshop however this is my first time ever designing a Thread. It's just random stuff I threw together because I'm currently just trying to see what I can do. Plus it's way smaller than a actual full design, I just wanted to post this before i finish so i can correct anything that's not right before I continue. :) Thanks :3

I really like this design, it's simple, it's sleek, and it's not "crowded"

?Syria - February 22, 2015, 5:18 pm

nice slick good job will their be a psd for it ? :P

Does it look alright as it is with the color scheme or should I add on to it, with a couple more features?

Hey!,

I have to be honest! that's a pretty DOPE Design I hope you sell some soon!

Best Wishes,

i think the drop shadows on the texts should be removed.. :) will improve the design in total..

I disagree, I think drop shadow fits perfectly on this design. There's a problem when people can't use drop shadow properly, but this guy obviously knows.

Good job man! ?

Razor 1911 - February 23, 2015, 1:14 pm

well its just my opinion.. i think i need to be little more specific remove the drop shadows from the text in "features section" , but once again its only my opinion OP can experiment a lil bit :)

FRANKIE - February 23, 2015, 1:17 pm

It's pretty dope to be honest. I love it.

Abhax - February 23, 2015, 3:45 pm

I will mess around with it a little more and see what I can do, thanks everyone for the awesome feedback!

I think the drop shadows could use more work, make them less intense

kamika\$e - February 23, 2015, 6:24 pm

Definitely different. Good job, but I think the drop shadows are a little over used.

Thanks for your review, I'll be sure to loosen up on my drop shadows!

Consume - February 23, 2015, 7:13 pm

Very nice. Is it easy to change the color from blue to something else?

Great first design! Looks like you have a very good start! Keep it up! Improvement is key!

OVmidNight - March 2, 2015, 12:02 pm

nicely done , continue the great work you're doing ,two thumbs up

vladimir putin - March 2, 2015, 12:20 pm

I don't like the shadows, but otherwise nice setup

halucination - March 2, 2015, 12:45 pm

The text in the verticle middle of the bars under stats would look better, and yeah, no stroke

4554551N - March 3, 2015, 6:40 am

beautiful simplicity at it's best well can you post a link where i can find basics of thread designing i am planning to design one and just when i have 50 posts i will upload one ?

Abhax - March 3, 2015, 7:25 am

Thank you all for your suggestions, I've been very busy lately however I will be modifying this design a little more and when I'm finished I will post a .PSD download link! Once again thank you all very much :)

Master Beta - March 4, 2015, 2:20 pm

You have done a smashing job considering its your first attempt. Good job keep it up.

Ordium - March 4, 2015, 2:23 pm

Get rid of this glow

Remove these shadows

A lot of your stylistic elements are actually good.

Not too shabby. I like it.

Thought, I have to agree with some of the people here. The shadow could've been removed.

Atleast reduce some of it.

That's just my 10cents though.

Keep it up! :)
