Im gonna collect some money to my E-whore paypal and going to donate somewhere. I think Childrens cancer research needs it more.

Tell me your opinion!

That sounds like a pretty decent thing to do. Good job if you follow through with it. ?

If you think you should donate it to children's cancer research, give it to them.

Yeah, It's better to donate to Cancer research than to use it on yourself!

Shit, I feel inspired. Might actually go donate something from what I've made too. I'll post with proof if I do ?

I think child cancer is more of an issue.

Donate it to children's cancer research. Breast cancer got 50\$ from some trolling on here before. Good job if you go through with it ?

Why don't you donate it to a charity that has to do with children being sexually abused? At least you're stealing from pervs to give the money to something they don't support.

Children Cancer man, If you actually go ahead donating some. That's a really nice thing your doing man!

In reality it doesn't matter which organization you choose to donate to because either way, it's a great gesture and a cure found for one could be applicable to the other.

Why not split?

Anyway, does not matter to which you donate, both are good.
