Thread: [Is Epic the better option for me? \(UPGRADING\)](#)

chawk - February 23, 2015, 11:26 am

Hey guys. I am a user that roams around the marketplace every once in a while taking an HF user up on a great deal. I even have ideas to start selling some of my personal products/methods.

Obviously a key channel of communication for this type of activity is Private Messaging.

I simply need more space. I am looking to upgrade my account to either l33t or 3pic.

According to what I have read, these are both options for me.

I have two main questions:

Does 3pic have the ability to post in the upgraded section of the Marketplace?

Also, will 3pic provide the features I am looking for? Any key differences that l33t users use that I won't have l33t that I am not thinking of?

Any advice would help, thanks guys for this awesome community.

Have a great day.

Most restricted sections require the HF Ub3r membership which requires HF L33T and for you to be approved by the system.

^This right here. 3pic doesn't really offer much to be honest. I have it however I would suggest going for l33t then ub3r.

If I were you, I'd upgrade to l33t, then ub3r, then 3p1c. That's the best order to go by.

I appreciate the response. I think I will do that.

Can Epics post in the upgraded members section, such as the premium sellers market? I feel like an ebook stands out there in comparison to the section for e-books by anybody.

Thanks

You dont need 5K PM's. L33t would be better so you can access the premium marketplace. Also

you can then progress to Ub3r.

Another thing is that ep3ic isnt really worth the required OMC if your current HD account isnt HF Ub3r.

Such features that require both are 5 second search flood time and 5 second PM flood time.

It really depends on what you plan to do. I don't really know exactly what you do in the market place, but uber sounds like the better option.

For any market seller (other than exchanging/crypto related) I would reccomend ub3r.

I guess you went with L33T, considering you are L33T now?

mrnapolean1 - February 23, 2015, 2:43 pm

Now that youre HF L33T, up your stats and when you feel like youre ready Apply for Ub3r.

I would like to thank you all for your insightful feedback. I have decided to start my road to Ub3r, in the mean time, I will very much enjoy being L33t. Thanks all for making this amazing.

And now, something I have been waiting for for many months!

I am going to close my own thread.

Have an amazing day.
