Thread: [\[FREE\] Thread Design #6 Maldini](#)

Maldini - February 23, 2015, 11:35 am

Hey HF, I was inactive now for a while, sorry for that one.

Here you have a new Thread Design, which is supposed to be rather funny and not too professional.

Everything besides fonts is selfmade so don't be scared about copyright.

Oh and give me time to get good again. :P

As for the old Thread Designs (1-5) and the unanswered PM's, I'll be opening a new Thread with direct download links to them very soon.

And for this one, just ask me for the link anywhere.
