Thread: [Cheated by "mrfong". UID=2615252](#)

Thehackerguy1 - February 23, 2015, 11:35 pm

Hi there, a guy called as "mrfong" <https://hackforums.net/member.php?action=profile&uid=2615252>.

In his first thread he had told me ddos a ip address it needs minimum 10 gigabytes to knock it down, here is post

<https://hackforums.net/showthread.php?tid=4688436>.

You can go through the comments and see i had given him a Facebook account to PM me.

Here is the PM proof.

I am Dolan And he is Shadi

Part 1 <http://prntscr.com/6950v9>

Part 2 <http://prntscr.com/6952is>

Part 3 <http://prntscr.com/6952s3>

Part 4 <http://prntscr.com/6952yg>

Part 5 <http://prntscr.com/695378>

Part 6 (Here is where he said it is down but he says it is up again) <http://prntscr.com/6953dv>

Part 7 <http://prntscr.com/6953jv>

Part 8 <http://prntscr.com/6953ly>

Part 9 (I showed him ping here it was lagging very badly but he denies it) <http://prntscr.com/6953pn>

Part 10 <http://prntscr.com/6953uy>

Part 11 (Here is where i got a doubt and checked for open ports and port "7777" was closed whereas port "80" was open and i said i will boot with port 80 offline) <http://prntscr.com/695405>

Part 12 <http://prntscr.com/6954dd>

Part 13 <http://prntscr.com/6954hj>

Part 14 (Random talk) <http://prntscr.com/6954m5>

Part 15 <http://prntscr.com/6954pk>

Part 16 (I thought my booter was very weak) <http://prntscr.com/6954w0>

Part 17 (I sent him a pic of www.isitdownrightnow.com and it said the ip is down) <http://prntscr.com/695537>

Part 18 (I tried all attacks my booter had) <http://prntscr.com/6955ev>

Part 19 <http://prntscr.com/6955p1>

Part 20 <http://prntscr.com/6955u8> (He stopped Pm'ing me after this).

I had gone through all his posts asking where is my cash, he always denies saying it was never down, whereas www.isitdownrightnow.com said it is offline.

He says he will pay but never pays me. If you do not believe these pics and say it is inspect

element i can show join.me proof too.
Thanks.

Edit: I had launched 3000sec boots too.

mrfong - February 24, 2015, 2:21 am

You said :P If it's down pay and it didn't go downhahaha and no you didn't try SSDP because u said u was trying udp and u said it urself and i sent u pics of the server having 4players but its up but it was lagging real bad .. I'm not a scammer like you you said if its down pay but it didnt go down

Thehackerguy1 - February 24, 2015, 3:25 am

Are you defending?, you did not mention anything about attack type despite that it went down.

mrfong - February 24, 2015, 4:39 am

It didn't go down and yes i'm defending haha you couldn't take it down and i showed u its up but it was laggy and u want ur money for something u didnt do

Thehackerguy1 - February 24, 2015, 7:55 am

Liar aren't you?, i posted every Pm we had and i showed the isitdown proof, i wonder why you are denying it.

mrfong - February 24, 2015, 1:16 pm

because it didnt happen install the game ddos and check by urself nexttime

Thehackerguy1 - February 24, 2015, 1:27 pm

I do not care about next time, i want my cash for multiple 3000 second boots.

EDIT: 100% it was down.

mrfong - February 25, 2015, 12:32 am

It wasn't down install the game and try to join urself and you will see it's not down stop begging for something you shouldn't have.

haydrazs - February 25, 2015, 12:34 am

This is the worst thread i have ever seen, before you create a thread similar to this please rethink everything you are as a human. Thanks

mrfong - February 25, 2015, 12:36 am

i even tried to send now and it says "i.imgur. com/gF9tsHH.png" i know you don't deserve it but you're annoying and look at this -_-

SIM-888979 - February 25, 2015, 12:38 am

He did not scam you, you did not take down the server. Port 7777 is open because it is a SA:MP server - if you want to check if it is down, use the SA:MP browser. Not isup.me.
