This is perfect! I bought this from him before he made the sales, but I can gaurantee, that this method will bring in slaves!

Originality: 10/10

I've never seen this method before, and it really has all it requires!

Ease of use: 8/10

Some of it is Autopilot, but the rest is manual work. But this doesn't matter really, it is really easy to do, and well explained.

Grammar: 9/10

As my native language isn't English, I can't 100% say this but I noticed a few little errors, however it is fully understandable.

Layout: 8/10

Very simple layout, and the structure is fine as well. Nothing too fancy!

Overall: 8/10

This method will teach you an unique way to get lots of slaves with no further investments! This is perfect, because you will never need to purchase a crypter again! It also contains a very nice spreading guide.

Good luck with sales!
