Thread: [Free Social Media Website Template](#)

Ooze - February 26, 2015, 2:31 pm

Hello everyone I created a small template for people who want to sell Social Media Services on a website.

Step 1: PM me for a download link to the template.

Step 2: Find a good Social Media supplier to resell from [Social Media Services](#)

Step 3: Find a good Web hosting service to host your website

Step 4: Buy a good domain Name

Step 5: Make any necessary changes i.e adding a login feature and or links to but things.

Step 6: PROFIT!

Hopefully I wrote the html in a fashion that is easy to read and understand what is what. I will leave a screenshot go it below so you can decide for yourself. Thanks for reading and hopefully this helps!
