Just a space monkey, smoking da ganja. and his brain exposed whatever.

This is the first time i've drawn something other than a human haha. I know the anatomy is off n shit, but its just for shit n giggles. its based off a game called Space Station 13, it's great.

feel free to criticize, would love to improve.

It looks like a hybrid of a pirate and a jock.

Pretty cool, just needs some cleaning. I like the dick, I wonder if it's erect.

Based on your criticism and some of my own tweaks. i made a lil bit improvement (i forgot to draw the fingers on the gun nvm it)
