Thread: [Is it possible to combine 2 exe?](#)

spikers12 - February 27, 2015, 7:15 am

I was looking into this but didnt find any way to do this. Does anyone know how to?

Haki1337 - February 27, 2015, 8:20 am

Yes you can bind one exe to the other exe then you got 2.

seemed you have never searched about how to do it!

just use any binder and can done it ,check "Hacking Tools and Programs"

w34k - February 27, 2015, 11:17 pm

I've answered this many of times. No need for a GUI binder, just use command line to do it.

Windows

Code copy /b file1.exe + file2.exe outputfile.exe

Linux

Code cat file1.exe file2.exe > output.exe

Windows

Code copy /b file1.exe + file2.exe outputfile.exe

Linux

Code cat file1.exe file2.exe > output.exe

Thats basically how the binders work.

Some dont even bind but download their own stub -.-

Yeah of course it's possible and rather easy by buying a crypter from the market place here you can bind one exe (like a legit program) to your RAT & have it FUD too!

?
