Thread: [Scammed by Highasakite UID: 1709393](#)

?????? ???? - February 27, 2015, 12:04 pm

I was scammed by Highasakite, UID is 1709393.

The deal? Twitter account creator bot for \$5.00

I paid in BTC.

Thread: <https://hackforums.net/showthread.php?tid=4696580>

Problem? Requests admin permissions, when if it's a simple bot shouldn't, secondly even if I give it admin permissions (running on VPS), it DOESN'T WORK!

Account creator doesn't work. I use fresh, tested proxies, nothing works. Other users who bought on thread complain about same issue.

So, I ask for my \$5.00 back, he threatens me.

He says in his threads errors people have been getting (SAME ONES I AM GETTING) are because 'the proxies are dead' - I run them through my proxy checker and even check them manually, they work fine.

All I want is very simply my \$5.00 in BTC back, or a working product. Not much to ask?

Screenshots:

Spoiler ([Click to View](#))

As in the last screenshot he says this is a false scam report? It's not. I pay for working products, you fail to deliver working product. Therefore, it's a scam.

This is legit he is a scammer with his shit products and he always posts on my threads saying "why buy this when you can buy other ones cheaper for like \$5".. maybe cause they don't work...

?????? ???? - February 27, 2015, 12:07 pm

Thanks guys. I just want my money back, or very simply a working product.

The product works great anyone who would like to screen share before purchasing can pm me and i will show you it working.

What is happening..... is socialmediasupplier hates me because i called him out for just being a reseller of his bots. I also sell my bots for cheaper. So this is his attempt to bash my sales.

here is his first attempt

(Feb 23, 2015 08:11 PM)SocialMediaSupplier Wrote: [\[CITE\]](#) Yes if you wanna know more info and stuff i will even show u a demo add my skype socialmediasupplier.hf ?

I wouldn't skype him he could make threats of DDOS'in you.....

here is more proof he is trying to bash me

Ok so that is Clearly one of the dumbest messages i have seen in a while.....

And to top it off you don't include any information on who said that? WOW lol

I uploaded this just in case this kid removes his last post.

I am in no way sales thread trashing. I am only stating the obvious.

You realize I'm not affiliated with SocialMediaSupplier right?

I purchased your bot under the assumption it would work, it asked me for admin permissions, so I moved it to a spare VM and executed the file. It opened, nothing worked in it. Therefore it is a scam, I paid for a working product, deliver a working product or send my refund.

You're making an excuse, because you blame everything on proxies, when confronted to supply a proxy to proof, you say you're out.

Here's what I'll do, I'll turn my own PC into a local proxy, and I'll connect. I have a strong feeling it won't work.
