Hello everyone,

Here Supervisor, after talking to the admins I am proud to announce that we are finally listed @Cryptsy for vote. I am sure you all are happy as well :)

It is a good start and I am still in contact with them trying to speed up the process to get OmniCoin officially added @Cryptsy. I will keep you guys updated on upcoming news about the progress of OMC @Cryptsy.

How to vote:

Each Cryptsy user is allowed 1 free vote per coin.

To sign up please visit this link: <https://www.cryptsy.com/users/register>.

Alternatively, they are also accepting CryptsyPoints as part of Cryptsy paid vote program (5 votes per CryptsyPoint).

Do we need to send them in parts of 0.0002 btc or can it just be a sum?

mirny - February 28, 2015, 6:59 am

I voted as well, it is important to get this coin to many exchanges as possible, but I would prefer poloniex than cryptsy.

cryptsy has a really big withdrawal fee

You can send them in parts if you want to have fun :) or you can simply send it all in a sum.

Request another confirmation email if they fail to send you. Sometime certain email provider block

their email, then try register with different email.

OMC drop to Number 5 now. Please vote as much as you can.
