Thread: [Selling M9 Bayonet Slaughter](#)

Magic™ - February 28, 2015, 3:22 pm

Selling M9 Bayonet Slaughter. White diamond Play side and full phoenix back side.

The float of the knife is 0.07 making the item quality FN even though its MW. Can provide proof of float and pattern to serious buyers.

This knife is not a typical M9 Slaughter and is worth around 215-220K. I'm asking roughly \$335 (65%) for it. Slightly negotiable.

Edit: SS of PS/BS on low shaders.

Why didn't you link pictures to it? Pretty important, but msg me when you upload them I might buy.

Hey man, would you be willing to trade that knife for a Karambit CW ST FT? (Worth 240-260k) I am interested in getting a M9 Slaughter.

<http://prntscr.com/6bntI9>If you don't mind, look at my recent sales and I have no issues using a middle man. Phyber, Package, Ty, etc. etc.

If you have no purpose to be here kindly leave, ignorance isn't needed here.

On topic: still selling this.
