Anyone else here do psionics? AKA: Pk, qigong, psionics, etc

Been doing it for over a year now, just found out my friend has been doing it for over 2 years.

If you don't know what it is, look it up. It's basically magic in real life. Very entertaining if you do it right, you can make things happen.

For those of you who don't think its real/don't believe me, I can guarantee it is very real, I won't say everything I am able to do, but here are some fine examples of what you can do:

Pyrokenesis - moving a candle flame, putting out a candle, with your mind

Telekenesis - Moving objects, causing things to fall without ever touching them.

Shielding - Creation of (quite tangible) shields made out of energy (ki/chi/psi)

Mind breaking - something I recently discovered, basically the ability to induce panic attacks in a person or causing them to have a temporary synaesthesia.

Mind control - Influencing some ones actions by talking with the subconscious mind

Energy manipulation - extracting and/or moving of energies

I also recently discovered a way of time manipulation (speeding up up to 1.5x and slowing down up to 1.5x)

Anyone else do this? if so PM me your skype or post here

Sounds pretty fuckin' cool, if I say so myself.

Where exactly do you 'learn' these things?

There is this one wiki, I just learned a few things there and went on from there.

My friend and I have been experimenting with new things, trying to see what works best.

I'll PM you the wiki

That'd be pretty sick. Sounds like something I'd like to look into.

Cheers.

Yea, I'd like to connect with some other people that do it, though.
