Thread: [Free 1-Month Codes Method \(Modified Current Method\)](#)

Zach7z - March 1, 2015, 4:28 pm

I've only done this once so post your feedback on how it goes!

Step 1: Make a fresh account or one that hasn't been on gold yet.

Step 2: Start the 1 month trial

Step 3: Make sure you only have one payment option, Call or Chat support regarding an issue with removing your payment option because you're giving the account away to your brother and don't want him spending anything

Step 4: Tell them you would like them to cancel the subscription and give you a 1 month code so you are able to remove the payment option and claim you are going to use it on the account once the payment option is off

Step 5: PROFIT

I want some credit as I sent this to 5 Leets and ubers

8i8 - March 1, 2015, 4:33 pm

Sorry to break it to you but this isn't a new method at all.

LMFAO your ebook is a well-known method and looks nothing like mine.

Free gold eBook (Ghetto Book)

- 1.)A random account you have access to the Email so you can confirm it is your Account
- 2.)Call/Chat Microsoft (I prefer to Call as it is Easier and Less complicated)
- 3.)Once you have contacted Microsoft Do billing/Account
- 4.)Once there and you are speaking to an Represenative say this
- 5.)Hello my name is (Name on the Account) and I am Calling to Request to have my gold Cnaceled, My mother has been sick lately and is in the Hospital, Me and my uncle have to go to Texas to Pick her up as she was on a Business Trip and fell and was Unconsius, She was said to have to be in the Hospital for 3-4 Weeks and I am not allowed to bring any Electronics with us Including my xbox, I am requesting to have the Gold on my account Cancelled and have a New token sent to my email so when I comeback from Texas I am able to Play and Enjoy my Xbox again
- 6.)When they say Ok and sent a token say this "Last time I called in about cancelling my Gold I was speaking to an Represenative named Greg and he Said that If I ever have to do this again I should always request another token because most of the time the generated ones are either used or Unresponsive and that it is very Important to Reuquest another code so I dont have to call back and go through the Same Process"
- 7.)Once all is Siad and Done you will have doubled your Xbox live and be happy
- 8.)Always try and call off different numbers as the same Number would start to become Suspicious

and Flagged in the Database

9.)Always make sure when you do this that it is a Different name and Number

10.)HAVE FUN AND START YOUR OWN BUSINESS

This wasn't what I was expecting. Lmao some kid was keeping this "private" by only telling certain members.
