Just one question OP

Why you and other member asked to wear signature to till then

Many member offering to upgrade accounts and said to wear signature. Which we wear and which we not. What result we got after wearing signature for many days.? I got nothing when i weared a signature for many days with patience. Random peak for upgrade account of member is correct ? Only 1 or 1 members are lucky out of many members.

It is asked to wear a signature because in this way you help advertising our products on the site. Then we're just offering you a chance to win, we can't upgrade each one of you (upgrades have a cost) so you can join the contest and get a % to win, getting upgraded or you can not join, it's up to you.
