Thread: [Anakin & Co. Professional coding service 2+ years \[Products/Websites/Homework\]](#)

Anakin™ - March 3, 2015, 6:42 am

Hello.

I've teamed up with a couple people I know and we're now offering full coding services, in addition to my already existing coding homework service.

Things you need to know:All languages

Price depends on work hours and the complexity of the order

Accepting Paypal and Bitcoins

Possible to code:Desktop applications

Web design

Web applications

Interoperable applications

Database designs, scripts and procedures

Code review and refactoring

Not coding:Game cheats

How to do business?

Send me a PM with the following:Your general idea of the software wanted OR your homework task:

Programming language used:

Payment option (PP/BTC):

Comments (additional 5-10% on top of the payment): YES/NO

Special requests / additional explanation:

ToS:Payment first to most users, flexible with users I deem trusted and have dealt with before

If I fail to deliver the task in the promised time, you'll get a full refund and a 50% discount on the next time you'll be using my service (all orders delivered on time so far)

I will communicate at least once a day to give you a full update of what has been done on complex projects

Don't PM me with 'add me on skype bro'. I won't add you on Skype until we make a deal on HF. Read the instructions above and follow them. Everyone who doesn't follow the instructions will be ignored

Fancy thread design incoming.

Thanks. ?

Stoned AF - March 3, 2015, 6:28 pm

What do you consider 'smaller' hw tasks?

Can you do network programming in C? Let me know.

Comedic - March 3, 2015, 6:47 pm

Seems like a nice and promising service mate! Good luck with it.

Anakin™ - March 4, 2015, 7:06 am

(Mar 3, 2015 07:28 PM)Hammered Wrote: [\[CITE\]](#) What do you consider 'smaller' hw tasks?

Can you do network programming in C? Let me know.Anything that won't require over 50h of work I guess.

PM me the task and I'll let you know whether I'm able to do it or not.

poecile - March 5, 2015, 6:04 am

Hey man I need a small application designed in C# I havent been on the site long enough to PM so if you could add me on Skype my name is "kalvinnnn" I need the work done by Wednesday the 11th and can pay first as im not a long time user of the site.

Anakin™ - March 5, 2015, 6:15 am

PennTest - March 5, 2015, 5:30 pm

Vouch for this guy. Really fast, and work with you if you are not satisfied with the code. In this case, he did an awesome job. I will require his services in a near future.

Anakin™ - March 6, 2015, 5:57 pm

a near future.Thanks for the vouch mate. Glad you enjoyed my service. :)

G_Homie_G - March 7, 2015, 8:41 pm

msged for coding help add me on skype please.

Anakin™ - March 10, 2015, 9:52 am

I've been working on a bigger task for the last couple of days and sorry if I didn't reply to all PMs. If I haven't replied to your PM, please send me another one.

I'm also now offering a full coding service, on top of my coding homework service. And I expanded from solo work to a team work.

This will result in a faster delivery time and bigger projects to be taken in.

Dafunk102 - March 10, 2015, 3:42 pm

Hey do you do game hacks? If so my skype is fknconansgrandpa! Thank you.

Victini - March 11, 2015, 3:50 am

can you code something for a booter? i have a source and i need a stop btn coded into it...

Anakin™ - March 12, 2015, 10:19 am

(Mar 10, 2015 03:42 PM)Dafunk102 Wrote: [\[CITE\]](#) Hey do you do game hacks? If so my skype is fknconansgrandpa! Thank you.We currently do not do game hacks.

(Mar 11, 2015 03:50 AM)Victini Wrote: [\[CITE\]](#) can you code something for a booter? i have a source and i need a stop btn coded into it...Probably, please PM me and explain what needs to be done.

Also, please take into consideration that we're working on several projects daily, and that when you PM me with a bigger project with the deadline in less than 24 hours, we most likely won't have time to do it. Or if we will have the time, we'd have to put on hold all other projects we're currently working on and put top priority on your project, which will also cost you extra.

Anakin™ - March 17, 2015, 4:41 pm

Finished up more or less all orders we've been working on.

Service is opened for business!

Inkyzt - March 18, 2015, 4:41 pm

Hey. I need something coded ASAP. I'll pm you the details.

vo1dptr - March 18, 2015, 6:33 pm

Is anybody on your team competent in x86 ASM?

Anakin™ - March 20, 2015, 5:16 pm

(Mar 18, 2015 06:33 PM)dotonthewall Wrote: [\[CITE\]](#) Is anybody on your team competent in x86 ASM?You can send the desired task over and I'll let you know whether we can do it or not. :)

NickieJ - March 20, 2015, 5:41 pm

Hello,

I am interested in your service.
Skype: ex.pvp1 (North Korea)

Anakin™ - March 27, 2015, 6:22 pm

We have been working on a bigger order and that's why all other orders have been delayed.

My team and myself will have to reschedule all the orders that have been put on hold and I will be PMing you shortly.

We're also now open for business again!

Anakin™ - April 10, 2015, 5:10 pm

I've been busy with personal life and therefore I wasn't active the last 10 days.

All started projects have been finished and delivered on time.

I've lost counts in the PMs, so the bussines is open again.

PM me with your tasks.

Anakin™ - April 18, 2015, 7:15 am

Finished 30 orders so far since I opened this service.

Let me know if you need stuff done.

Anakin™ - April 22, 2015, 5:40 pm

We're currently online and looking for more projects or tasks.

Stoned AF - May 6, 2015, 12:02 am

Are you good with C network programming? Or MySQL?

Theodore 'T-bag' Bagwell - June 22, 2015, 3:52 am

Sent you a message, hopefully one of your members or you can get the job done.

Raptor. - June 22, 2015, 7:56 am

Can you code a VPN client from the ground up including encryption? If so can you give me a rough quote?

Anakin™ - November 17, 2015, 10:47 am

This service is active again, so hmu if you need stuff coded.

Anakin™ - November 28, 2015, 1:20 pm

Finished a few orders, looking for more work now.

Anakin™ - December 4, 2015, 7:29 am

Open for orders at the moment again. Coding all kind of stuff!

Anakin™ - August 22, 2016, 2:31 am

I'm back and open for orders again.

Let me know if you need something developed.

Anakin™ - August 25, 2016, 10:52 am

Open for work as of now. Already finished an order since we came back in action.

Anakin™ - February 28, 2017, 4:13 am

I'm back here and up for some additional work. Let me know.

Anakin™ - March 15, 2017, 7:43 am

Looking for more work right now, finished some orders.

Anakin™ - April 10, 2017, 5:37 am

Up for more orders as of today.

PietHein69 - April 15, 2017, 3:27 am

I need help on doing a few tweaks on my shopify store, are you able to code that? Nothing too fancy.
