Thread: [Max Post Length](#)

Omniscient - March 3, 2015, 3:22 pm

I've created a plugin that will separate the Max Post Length setting by group.

It was a global setting at 18,000 characters for all members.

New Settings for Max Post Length

Regular Members: 8,000

L33t: 12,000

Ub3r: 18,000

3P1C: 24,000

Enjoy.

Let me know if there are any problems.

Belfort - March 3, 2015, 3:23 pm

Hi Omni I love this idea, I love you Omni, hi Omni

FRANKIE - March 3, 2015, 3:23 pm

Pretty neat, thank you for letting us know. Will there be any other implementations in addition to this one?

Lexica - March 3, 2015, 3:23 pm

Oh, seems like a cool little addition. Thanks Omni.

Vexane - March 3, 2015, 3:24 pm

If I'm L33t & 3P1C do they stack or am I capped at 24,000?

ZuGgY - March 3, 2015, 3:24 pm

Sweet.

Thanks for the update, Omniscient. This will be great!

Ahri????? - March 3, 2015, 3:25 pm

Now I can post my entire book on HF without the need to create multiple post, my childhood story is coming soon to HF :)

Roger Waters - March 3, 2015, 3:27 pm

Yay for new features!

cough cough 2fa next pls

630 - March 3, 2015, 3:29 pm

I was a little confused at first, but understand it now. Will make the news / writing tutorials easier I'm sure. Thanks.

Krew - March 3, 2015, 3:30 pm

(Mar 3, 2015 04:23 PM)Evan. Wrote: [\[CITE\]](#) Hi Omni I love this idea, I love you Omni, hi Omni
How can you love this if you lose half of the characters? ???

Belfort - March 3, 2015, 3:32 pm

(Mar 3, 2015 04:30 PM)Krew Wrote: [\[CITE\]](#) How can you love this if you lose half of the characters?
???

Omni is God. He is the reason I am alive today. Without HF, I would actually have to go outside

Diabolic - March 3, 2015, 3:32 pm

Will make the pain in the ass of doing long threads, an easy task. Good stuff.

BoX. - March 3, 2015, 3:33 pm

Nice little change.

With the increase in post length for 3p1c users, will there be a revision on the number of images
different usergroups can use per post/thread?

Vanilja - March 3, 2015, 3:34 pm

I think this is a great update for those who write long ass tutorials.

Handsome Banana - March 3, 2015, 3:34 pm

No change for me then xD I guess this is good for epic users tho.

Gustav. - March 3, 2015, 3:38 pm

Now I really need to get 3P1C, ASAP.

Oak - March 3, 2015, 3:42 pm

Could you give Moderators back an unlimited post count?

Omniscient - March 3, 2015, 3:51 pm

(Mar 3, 2015 04:42 PM)Sir Wrote: [\[CITE\]](#) Could you give Moderators back an unlimited post count?
No.

Astute - March 3, 2015, 3:56 pm

I assume it will be the latter, but do these rights stack?

If I am UB3R and 3P1C then do I receive stacked benefits, or do I only receive 3P1C (which
happens to be the greater one in this case).

Thanks Omni!

EDIT: Just noticed a ton of people asked this question as well, sorry if it seems repetitive.

BrianKush - March 3, 2015, 4:08 pm

Well, seems like it got lowered since I'm leet, but thanks anyways for making some forum
adjustments.

Comedic - March 3, 2015, 4:22 pm

Yay. Thanks for this plugin. ?

tweety - March 3, 2015, 4:41 pm

Fantastic. Would make the AA Weekly being compiled on site a little easier. Great update.

mrnapolean1 - March 3, 2015, 4:50 pm

Any chance to fix the videos problem?

If I want to add more than 1 video to my OP I have reply to myself for each video I want to post.

Roger Waters - March 3, 2015, 5:10 pm

(Mar 3, 2015 05:50 PM)mrnapolean1 Wrote: [\[CITE\]](#) Any chance to fix the videos problem?

Use the [yt] tag to get around that.

^Three videos to a post, you can probably do a lot more if necessary.

SwiftBot - March 3, 2015, 5:11 pm

i cri everytim

no more long threads. D:

webdev77 - March 3, 2015, 5:12 pm

Sounds great.

For all you who want to know what limit applies to you, try to make a long post and see what happens.

Sir - March 3, 2015, 5:44 pm

Looks like I need to get 3P1C.

?

h?cker22 - March 3, 2015, 6:09 pm

Well now I'll buy Ep1c. Thanks for the update.

Aceman - March 3, 2015, 6:32 pm

Cool now all those who wish to write massive tutorials or topics will be able to do so. ?

Enronitis - March 3, 2015, 6:34 pm

This was literally what was stopping me from finishing my stock mega thread.

Was such a bitch to try and organize everything into a million different posts, this will make it a tad easier.

DLT. - March 4, 2015, 12:47 am

It's a nice addition for 3P1C to have an extra 6,000 characters than the default. So your plan on getting more people to use OMC, is working.

However i still would love to see this [implemented](#). I really do think it will make a big difference.

Ordium - March 4, 2015, 12:49 am

Out of curiosity, why give Epic a higher cap than Uber?

To get more people to want OMC?

DLT. - March 4, 2015, 12:52 am

(Mar 4, 2015 01:49 AM)Ordium Wrote: [\[CITE\]](#) Out of curiosity, why give Epic a higher cap than Uber?

Yeah, just check the replies to this thread and you'll notice multiple members saying they're going to upgrade to 3P1C now. That's what we need, supply floating around the forums.

NiktoKan - March 4, 2015, 1:23 am

Very smart limit. The perceive value of 3PIC may go higher than UB3R.

'Snorlax - March 4, 2015, 3:05 am

This is really awesome. Whenever I'm doing something for the HF News team every week, I always hit around 20-24k characters. Before I had to cut out a lot to test, but this definitely helps!

Thornzzz - March 4, 2015, 5:30 am

Well, I was already on the border of buying Epic because of the PM space but now it seems like I really should. Guess I'll be getting it when I get paid.

MrOrang - March 4, 2015, 6:13 am

What would the limit be for uber + epic members?

Purest. - March 4, 2015, 6:14 am

Does it have to be the primary group?

Nice creation omni!

'Snorlax - March 4, 2015, 6:52 am

(Mar 4, 2015 07:13 AM)Looka Wrote: [\[CITE\]](#) What would the limit be for uber + epic members?

I assume the priority is set to be the highest. So if you're UB3R and 3P1C, your maximum length will be 24000.

Omniscient - March 4, 2015, 12:53 pm

(Mar 4, 2015 07:14 AM)Purest. Wrote: [\[CITE\]](#) Does it have to be the primary group?

Nice creation omni!

No, it does not. 3P1C cannot even be your primary group. It can only be a display group which is not the same. Regular, L33t, and Ub3r are primary groups. 3p1c and even Mentor are secondary groups along with all custom member groups. Staff and Admin are primary groups but those bypass just about all setting limitations.

LessThan3 - March 4, 2015, 2:38 pm

This is awesome, thanks for the great addition!

Fallenour - March 4, 2015, 3:50 pm

(Mar 3, 2015 04:51 PM)Omniscient Wrote: [\[CITE\]](#) No.

While I'm not one to ever tell a man he can't smoke in his own home, if I may.

Instead of giving unlimited characters on the forums, would you be open to, or at least the consideration of giving them a substantial amount more, say 40,000 to 50,000 characters inside of a specific subforum, and only allow 2-3 posts at such length per day?

That way, it would be severely limited only to the areas in which they moderate, which would allow for individuals like Sir to make news posts into single posts, while also ensuring that abuse of said ability would be limited.

Additional benefits to this would be for instance, someone makes a lengthy tutorial on wireshark. Just learning all of the modules would take a healthy 30-40 posts at my current character setting restrictions. With this new suggested rule in place, would the chance arise, I could pass my tutorial on to a moderator, who could post it for me, and in just a handful of posts, instead of the dozens it would take me.

The work flow alone of preplanning, staging, skeletal structuring, and then step by step guides is a massive undertaking, and following my own work at current settings is hard to do.

This instance shows in my router and switch tutorials for instance. They are in pieces because it was the only way to manage it, but they are only a very basic baseline config to even begin building off of. Once I finish with the 50 or so threads (when I can finally get back to it), then I will have to provide 50-60 links to the threads, and individuals will have to painstakingly go to link after link after link, tutorial by tutorial, just to accomplish one moderately configured switch.

From a business perspective, I highly expect that in the event of higher quality tutorials, with centralized structure, or at least large content fields, we would be able to produce potentially, far greater quality posts in terms of walk throughs, tutorials, and thread based classes.

By doing so, it would increase the amount of valuable content to the site, and thus potentially increase the number of hits to the site, as well as users.

Again, its your house though, and I'm not one to tell a man what to do in his own. Its just a thought. I personally would love to put up a nice solid tutorial on wireshark and routers/switch infrastructure though. At the current standings though, unless I make a video, it won't fit ?

BITW - March 5, 2015, 1:18 am

Thanks for informing. Sad to see i do not have 3pic but also not required that now. 18,000 is good for me.

Good decision.

NiktoKan - March 5, 2015, 2:32 am

My suggestion is cut it short or replace with picture.

xVulnerable - March 5, 2015, 5:28 am

Am I the only one to think that UB3R should cost more than EP1C?

Impervious. - March 5, 2015, 5:36 am

(Mar 5, 2015 06:28 AM)xVulnerable Wrote: [\[CITE\]](#) Am I the only one to think that UB3R should cost more than EP1C?

ub3r costs more than ep1c ? unless you meant post ofcourse.

Banned For Nothing! - March 5, 2015, 6:59 am

What about thread design? if they exceed more then the max post length they just use big ass images you should consider this too.

Mangahome - March 5, 2015, 7:02 am

That means Cahrs not Lines right? idk 8k? Well will be eanough i think.

?lien - March 5, 2015, 9:39 am

This update/feature makes perfect sense and I welcome it. I wonder if a possible update to the amounts of images or videos will change for different classes of upgraded members. Even a minimal one would be good, but at the same time it isn't really necessary.

Omniscient - March 5, 2015, 4:40 pm

@Fallenour No. Until we're on new hardware I'm not going to put more resources into it.

hellomen - March 5, 2015, 5:16 pm

Didn't read all posts as I am on an iphone.

But could you explain why epic is "better" than l33t and uber in this case...

While epic is cheaper than leet or uber

Fallenour - March 5, 2015, 6:04 pm

(Mar 5, 2015 05:40 PM)Omniscient Wrote: [\[CITE\]](#) @Fallenour No. Until we're on new hardware I'm not going to put more resources into it.

If you don't mind, I would like to take the convo to pm if thats ok with you. I'll shoot you a pm.

IpSiety - March 5, 2015, 10:23 pm

So regulars and l33ts got nerfed, ub3rs remain the same, and epic was buffed.

Carl Elias - March 6, 2015, 6:01 pm

Questions about it I have even though I doubt I will even hit 8,000

Does the limit count MyCode?

-Ty

NoodleBot™ - March 6, 2015, 6:11 pm

Good update, needed for sometimes those larger posts, especially in news and science sections.

Hysteria™ - March 6, 2015, 6:40 pm

In my opinion this is one of the best updates yet thank you omni.

Gustav. - March 6, 2015, 6:44 pm

(Mar 5, 2015 11:23 PM)Increase Wrote: [\[CITE\]](#) So regulars and l33ts got nerfed, ub3rs remain the same, and epic was buffed.

Upgrade to 3P1C and you wouldn't have to worry about it man. I am pretty sure that this was updated to get OMC better stats, or whatever term crypto collectors use to substitute the word 'status'.

Sajuuk - March 7, 2015, 9:50 am

There is one way I can get around this that I know about, but I probably don't need it since my posts aren't that long.

b?xxy - March 7, 2015, 9:51 am

Awesome add Omniscient.

Now I can add more things to my Threads without needing new posts.

yungselfiegod - March 7, 2015, 9:56 am

I always thought it was 2000 characters lmao. this will be good for hf news

Repeat - March 7, 2015, 4:41 pm

Thank you I will begin my essay now, cheers omni.

Captain Steve Rogers - March 7, 2015, 8:23 pm

Wow i never knew there was Max Post Limit.

Thanks Sir.

Btw 1 question

Ub3r: 18,000

3P1C: 24,000

Ub3r + 3P1C : ?

IpSiety - March 9, 2015, 9:20 pm

(Mar 6, 2015 07:44 PM)Chief Wrote: [\[CITE\]](#) Upgrade to 3P1C and you wouldn't have to worry about it man. I am pretty sure that this was updated to get OMC better stats, or whatever term crypto collectors use to substitute the word 'status'.

There aren't enough features in epic for me to even look at that option yet.

I'll just deal with it.

NoMercy - March 10, 2015, 12:58 am

Damn, this is cool! Thank you Omniscient.

IpSiety - March 10, 2015, 7:06 pm

(Mar 10, 2015 12:58 AM)NoMercy Wrote: [CITE](#) Damn, this is cool! Thank you Omniscient.
This is how I know people are just dick-riders and too afraid to actually speak their mind. ?

Fox™ - March 10, 2015, 7:09 pm

Nice! This will greatly benefit those making a mega-thread.

Eternal. - March 10, 2015, 7:27 pm

Well this is awesome, thank you for adding more Epic features.
