Thread: [Free Disposable Email Address](#)

DarkSwag - March 6, 2015, 2:21 am

Hello HF Members,

I just want to share with you my website, you can generate disposable email address which expire after 15 minutes.

I use it to sign up for free offers or on some websites.

If you are interested, Take a look [HERE](#)

This looks very nice, you should consider going open source like on github so people can contribute to it, etc.

TheMB - March 12, 2015, 12:23 pm

These type of sites are always useful, nicely done.

Hi, It looks g8 service. But I am not able to send email to yahoomail I've not tried others. Please somebody post an email header from the email recieved by Incognito.
DarkSwag, please could you shed some more light if there are any logs kept or not as from the site it self shows it logs data.
