Thread: [Omnicoins error when mining](#)

The Eye - March 6, 2015, 6:14 am

I just turn on my miner and I get this error

[2015-03-06 07:13:14] ...retry after 30 seconds

[2015-03-06 07:14:06] Stratum connection failed: Failed to connect to pool.omnicoin.cc port 3333: Timed out

[2015-03-06 07:14:06] ...retry after 30 seconds

any one know what to do?

Doctor Blue - March 6, 2015, 6:22 am

The pool has been down for a short period of time. Have you tried again? It should be up now.

Are you legitimately trying to mine with your pc?

The Eye - March 6, 2015, 6:36 am

Hash G. - March 6, 2015, 6:38 am

Maybe some ports used by miners are blocked in your hotel.

Doctor Blue - March 6, 2015, 6:50 am

Yes, that's most likely the problem. They may be blocking all non-standard ports, including 3333.

JOJOGANG - March 6, 2015, 7:21 am

Your uPnP could be disabled on the Wi-Fi router.

Doctor Blue - March 7, 2015, 6:34 am

(Mar 6, 2015 08:21 AM)JOJOGANG Wrote: [\[CITE\]](#) Your uPnP could be disabled on the Wi-Fi router. UPnP is inbound port mapping, it has nothing to do with an outbound connection.
