Thread: [\[\\$5\] Skype Resolver API's - Create Your Own Key! - DNS Leakage - Fast - 100% Uptime](#)

Gørilla - March 6, 2015, 11:55 am

Thread design in the works

I'm selling skype resolver API's in which I can create a custom key for you. You are welcome to do anything as you please with the API regarding sales etc. These API's use DNS leakage which I can't find anyone else selling with this feature.

Please PM me regarding this if interested, possibly work out a deal (price).

Accepted payments: paypal, btc.
