Thread: [Can we rename this to skid forums?](#)

Jcgob - March 6, 2015, 1:13 pm

We should just rename this to skid forums...

Everyone here is all like "teach meh how to batch?" or "Wat is a good stresser?" or my favourite: "how do I ddos this minecraft server?"

I'm serious! Does anyone here actually know what hacking is?

Internet Explorer. - March 6, 2015, 1:14 pm

It's more of a community forum. Now, get out.

Entityy - March 6, 2015, 1:15 pm

It's funny because i bet this guy doesn't know anything either.. Just saying.

Lil Durk - March 6, 2015, 1:15 pm

I thought you said my name, I was really confused.

Abhax - March 6, 2015, 1:15 pm

It's a community forum to help others, not brag about what you can and cannot do. If you don't like the way it is run, then leave simple as that.

PureLifeCoding - March 6, 2015, 1:15 pm

Can you change your account status to "Closed"? That would be step 1 to making this a better place.

Jcgob - March 6, 2015, 1:16 pm

I code C#, C, and assembler. Mostly C# though. :P

Abhax - March 6, 2015, 1:17 pm

(Mar 6, 2015 02:16 PM)Jcgob Wrote: [\[CITE\]](#) I code C#, C, and assembler. Mostly C# though. :P Have you provided anything you coded to the community? Or have you just been leeching off of others sources?

Jcgob - March 6, 2015, 1:19 pm

(Mar 6, 2015 02:17 PM)Abhax Wrote: [\[CITE\]](#) Have you provided anything you coded to the community? Or have you just been leeching off of others sources?

I made a program for @epicusername :P

PureLifeCoding - March 6, 2015, 1:19 pm

Somehow just based off of how cocky this guy is I feel like he watched 2 hours worth of tutorials on youtube about coding, stole a few source codes and changed the gui a little bit, and stroked his e-dick while making this thread.

Abhax - March 6, 2015, 1:21 pm

I'm getting the same feeling, He's a 1337 HaXoOR grabbing sources left and right then bragging on other forums about his newly developed "hello world".

Kify - March 6, 2015, 1:22 pm

(Mar 6, 2015 02:16 PM)Jcgob Wrote: [\[CITE\]](#) I code C#, C, and assembler. Mostly C# though. :P Damn, you're a real HAXXOR now.

And just a reminder, you're posting this in the 'Beginner Hacking' section

Jcgob - March 6, 2015, 1:23 pm

Not true...

I just stated a simple fact that too many people asking how to ddos. If you are one of them, you don't have to hate on me...

And when did I say I hack?

I just said that this forum is full of skids, and don't deny it.

Abhax - March 6, 2015, 1:25 pm

It's funny how you're running around looking at all these DDoS threads, are you trying to learn how to DDoS for yourself? You're not in a place to tell me what I can and cannot do.

Jcgob - March 6, 2015, 1:27 pm

(Mar 6, 2015 02:25 PM)Abhax Wrote: [\[CITE\]](#) It's funny how you're running around looking at all these DDoS threads, are you trying to learn how to DDoS for yourself? You're not in a place to tell me what I can and cannot do.

"looking at all these DDoS threads" It is in the title, I didn't say I was looking at the threads! Literally, in the title in these forums, the only thing is the word "DDoS".

You are one malicious person, if you don't like to thread, you don't have to reply.

I'm not telling what you what to do, I'm telling you that there are other options. To deny those options shows how screwed up you are.

I'm serious! Does anyone here actually know what hacking is?

Yes, I admit it. I do ask people with hacking experience to teach me on how it works, etc. Also, I

try to learn programming languages, as well as trying to be the best that I can be (I applied to a computer/trade high school for my freshman year next year). I may not be the best hacker, or even a hacker but I try my best to learn. I think that's what people would like, and we shouldn't stomp on them or be condescending to them. If we know how to help someone, at least try to give them a hand. Don't be an asshole going around and looking down at them, also don't try to fit in and talk about something you don't know about, trying to make it seem like you do (which I bet you do not).

Abhax - March 6, 2015, 1:32 pm

Here is the guy calling everyone else skids.

Jcgob - March 6, 2015, 1:40 pm

Considering the multiple threads I made about obfuscation, shows that I really really want to protect my code which I made. How does that prove that I'm a skid?

On the other hand, after looking at that RAT sourcecode post, I do see that even I ask for code and technically I am a "skid". I apologize for calling you guys out for being skids. Plus they are just wanting to learn how to work with computers and hack.

I guess I'm wrong and everyone starts hacking somewhere, which would be learning from other's code.

Again, I apologize.

TritonNebula - March 6, 2015, 1:44 pm

The point I'm getting to is you haven't contributed anything to the forum. Not a source, not any support nothing. You're calling the users of this forum skids yet you need help with everything you have been coding? Most likely stealing sources and claiming your programs as your own. Contribute.

Jcgob - March 6, 2015, 1:46 pm

(Mar 6, 2015 02:44 PM)TritonNebula Wrote: [\[CITE\]](#) Hmmmmmm.. seems you're sorry you got* caught.

Nope, I see that I was wrong. I admitted it!?

i CAN! - March 6, 2015, 1:47 pm

Useless user, useless post.. Who care what have you done for @epicusername...

TritonNebula - March 6, 2015, 1:49 pm

(Mar 6, 2015 02:46 PM)Jcgob Wrote: [\[CITE\]](#) Nope, I see that I was wrong. I admitted it!?

If Abhax didn't post that screenshot you wouldn't be in this position of you saying you're sorry and apologizing.

iDuL - March 6, 2015, 1:51 pm

There was a time that skidforums.com linked directly to HF

Jcgob - March 6, 2015, 1:51 pm

That's right. Abhax showed me that I am even a skid. Is there anything wrong with admitting it now?

A real asshole would just close the post or something. I understand now.

Abhax - March 6, 2015, 1:56 pm

(Jul 22, 2016 02:20 PM)M.D. Wrote: [\[CITE\]](#) Did no one else notice how old this fucking thread is that you gravedug?

I found this thread when I googled skidforums and I saw that and I couldnt leave it alone. I mean for fuck sakes he said assembler

Random Arab Girl - *July 22, 2016, 5:28 pm*

How do you make a Ddos? pls boss i need

redlightrouter - *July 23, 2016, 3:56 am*

Ofcourse that's what you're going to see in the BEGINNERS section. For more advanced stuff there are other sections :/

Dave from the lawyer firm - *July 23, 2016, 7:20 am*

such a long discussion over this question :/
