Thread: [How To Make A Gold Colored Text \(PS\)](#)

.Cherry - March 6, 2015, 3:32 pm

1. Create a new project choose whatever size you want
2. Use The Text Tool And choose The Font "Trajan Pro"
3. Type Anything you like for example "HF" use the color "F38400"
4. Double Click on you text layer and choose "Bevel & Emboss" Sorry For Swedish Image
5. Choose Those Options
6. And Change This To This
7. Make a new layer and choose Overlay
8. Then just add some white color on the overlay layer!

Glad To See you likeing** It Ty ?

iminjured - March 7, 2015, 9:03 pm

So simple yet so appealing. I've used something similar to this before. Very nice.

Sahaj - March 11, 2015, 11:11 am

Looks great! Thanks for sharing mate! :)

DjHaxorz - March 11, 2015, 5:11 pm

I'm glad you're sharing this with people! definitely a good tutorial!

Purest. - March 12, 2015, 2:20 am

Nice method man, I prefer gradient and bevel and emboss more though xD

Moseby - March 12, 2015, 2:23 am

Are you from Sweden?

Anyways thanks for the tutorial

Kristy.Everson - March 12, 2015, 4:09 am

Hey man thanks alot, will probably help me in the future :P
